Why Regional Tier Form of Decentralization Governance's Implementation Is a Preliquist for Uganda's Better Service Delivery of 21st Century Deo Rwangoga, The book looks at Decentralization governance of president Museveni era that was registered in Uganda of the local government status 1987 resistance councils status 1993 as well as into the 1995 constitution operationalized by the local government act 1997 that devolved legislative fiscal planning budgeting functions to districts Municipal councils as well as their lower tier levels whose idea was to involve the people in a way they were governed the dream that have not been achieved looking at what the cries of people are as expressed in all sectors This book analyses Decentralization from 1997 to 2019 and deduces that the first phrase of it 10 years that is up to 2005 was a success that time the district were 69 in number but beyond that time it was not at all and up to now as it is continuously becoming harder to manage those very many administrative units that jumped from just 39 districts in 1991 to 134 Districts in 2020 as well as municipalities created alongside districts that now stand at 41 2018 all contributing to formation of a Member of Parliament that total to 459 MPs 2018 All this has led Uganda to have a very poor governance system as even primary sectors of health education agriculture and economy are in a dilemma state leave alone local revenue collections that are directed from source to Centre before expenditure and the districts have to request back to do any activity including emergencies like garbage management repairs and salaries making services delivery impossible to be efficient and effective in all ways at these levels The book is based on secondary data that reported on governance issues of the day as written in Ugandan media that were people s feelings as issues of the time as well some Journals observations and interviews The book introduces decentralization governance of Uganda identifies current state of affairs of service delivery presents why there was need for many new administrative units and their state now looks at history of parliament feudalism identifies lost pride of Ugandans proposes what regional tier governance can address as well as linking the past with today s Ugandan governance Finally the book proposes prerequisite regional tier power centres relevant to today s Uganda and concludes with models that can help us achieve vision 2040 and therefore proposes immediate need to implement regional tier governance that will establish all three arms of government at regional centres of Uganda remember it was agreed to be implemented by those that deemed it under article 178 3 It is apparent that all regions should therefore implement it as a solution to service delivery that is very poor now

National Budget Framework Paper for the Financial Years ... Uganda,2015 Justice After Stonewall Paul Behrens,Sean Becker,2023-01-31 Justice After Stonewall is an interdisciplinary analysis of challenges and progress experienced by the LGBT community since the Stonewall riots in 1969 The riots sparked by a police raid in New York City are a milestone in LGBT history Within a short time a new feeling of confidence emerged manifested in new LGBT organisations and the first Pride marches Legal and social change followed from the decriminalisation of homosexual activities to anti discrimination laws and the legalisation of same sex marriage This makes it tempting to think of modern LGBT history as an unequivocal success story But progress was not achieved everywhere in 70 States same sex relations are still criminalised violence against LGBT persons still occurs and transgender people still struggle to have their rights recognised The question whether the path since Stonewall represents success or failure cannot be answered by one discipline alone This book breaks new ground by bringing together experts from politics sociology law education language medicine and religion to discuss fields as diverse as same sex marriage transgender students the LGBT movement in Uganda and LGBT migrants in the Arabian Peninsula conversion therapy and approaches to LGBT matters in Judaism Christianity and Islam What emerges is a rich tapestry of LGBT life today and its consideration from numerous perspectives Based on thorough research this book is an ideal text for students and scholars exploring LGBT matters At the same time its engaging style makes it a particularly valuable resource for anyone with an interest in LGBT matters and their reception in today s world
