Production, Properties, and Applications of High Temperature Coatings Pakseresht, Amir Hossein, 2018-01-12 Heat resistant layers are meant to withstand high temperatures while also protecting against all types of corrosion and oxidation. Therefore, the micro structure and behavior of such layers is essential in understanding the functionality of these materials in order to make improvements. Production Properties and Applications of High Temperature Coatings is a critical academic publication which examines the methods of creation, characteristics, and behavior of materials used in heat resistant layers. Featuring coverage on a wide range of topics such as thermal spray methods, sol gel coatings, and surface nanoengineering, this book is geared toward students, academicians, engineers, and researchers seeking relevant research on the methodology and materials for producing effective heat resistant layers.

3rd International Conference on the Application of Superabsorbent Polymers (SAP) and Other New Admixtures Towards Smart Concrete William P. Boshoff, Riaan Combrinck, Viktor Mechtcherine, Mateusz Wyrzykowski, 2019-11-20 The book gathers the peer reviewed contributions presented at the 3rd International Conference on Application of Superabsorbent Polymers (SAP) and Other New Admixtures towards Smart Concrete held in Skukuza, South Africa, on November 25-27, 2019. It features papers focusing on the behavior of SAP in concrete, in particular the absorption behavior, as well as the effect of SAP on fresh and hardened concrete properties. It also covers topics such as other modern admixtures, in particular rheology modifying admixtures, including the recently emerging field of bio or waste derived admixtures. The conference builds on the experience and summarizes the activities of the RILEM Technical Committee 260 RSC Recommendations for Use of Superabsorbent Polymers in Concrete Construction and addresses other prominent research activities in the field of concrete admixtures.

Clinical Application of Urologic Catheters, Devices and Products Diane K. Newman, Eric S. Rovner, Alan J. Wein, 2017-12-09 Designed to provide a comprehensive and state of the art overview of the use of urologic catheters and devices in clinical practice. Sections of the book have been structured to review the overall indication for the use of urologic catheters and devices, types, available complications, and management. This text fills a critical need for resource materials on these topics. The book also includes highly practical presentations and of typical patients with catheters or devices seen in the clinical practice of geriatric urology, all in the form of case presentations with expert analysis and editorial commentary. Highlighting the integrated multidimensional aspects of care for urology patients, this book is unique in the inclusion of collaborating multidisciplinary authors who are all recognized experts in their field. Written entirely by urologic specialists, Clinical Application of Urologic Catheters, Devices and Products provides a unique and valuable resource in the field of practicing urology for urologists, nurse practitioners, physician assistants, and for those currently in training.

Peptides and Peptide-based Biomaterials and their Biomedical Applications Anwar Sunna, Andrew Care, Peter L. Bergquist, 2017-10-26 Solid binding peptides have been used increasingly as molecular building blocks in nanobiotechnology as they can direct the

assembly and functionalisation of a diverse range of materials and have the ability to regulate the synthesis of nanoparticles and complex nanostructures Nanostructured materials such as sheet fibril forming peptides and helical coiled coil systems have displayed many useful properties including stimulus responsiveness modularity and multi functionality providing potential technological applications in tissue engineering antimicrobials drug delivery and nanoscale electronics The current situation with respect to self assembling peptides and bioactive matrices for regenerative medicine are reviewed as well as peptide target modeling and an examination of future prospects for peptides in these areas

Space Physics and Aeronomy, Ionosphere Dynamics and Applications Chao Huang,Gang Lu,2021-05-11 A comprehensive review of global ionospheric research from the polar caps to equatorial regions It s more than a century since scientists first identified the ionosphere the layer of the Earth s upper atmosphere that is ionized by solar and cosmic radiation Our understanding of this dynamic part of the near Earth space environment has greatly advanced in recent years thanks to new observational technologies improved numerical models and powerful computing capabilities Ionosphere Dynamics and Applications provides a comprehensive overview of historic developments recent advances and future directions in ionospheric research Volume highlights include Behavior of the ionosphere in different regions from the poles to the equator Distinct characteristics of the high mid and low latitude ionosphere Observational results from ground and space based instruments Ionospheric impacts on radio signals and satellite operations How earthquakes and tsunamis on Earth cause disturbances in the ionosphere The American Geophysical Union promotes discovery in Earth and space science for the benefit of humanity Its publications disseminate scientific knowledge and provide resources for researchers students and professionals Find out more about the Space Physics and Aeronomy collection in this Q A with the Editors in Chief

Application of Nano/Microencapsulated Ingredients in Food Products ,2020-10-17 Application of Nano Microencapsulated Ingredients in Food Products a volume in the Nanoencapsulation in the Food Industry series presents applications of nano micro encapsulated ingredients such as vitamins minerals flavors colorants enzymes probiotics antioxidants and many other bioactive components in different groups of food products Each chapter explores nano microencapsulated ingredients in food products including beverages cereal flours and bakery products meat oils and fats salt spices and seasonings functional supplements and in chewing gum In addition the book explores active food packaging and edible coatings with nano microencapsulated ingredients Authored by a team of global experts in the fields of nano and microencapsulation of food nutraceutical and pharmaceutical ingredients this title is of great value to those engaged in the various fields of nanoencapsulation Clarifies which nanoencapsulated ingredients can be applied for different food products Thoroughly explores the influence of nanoencapsulated ingredients on the qualitative properties of different food products

Biomedical Applications of Functionalized Nanomaterials Bruno Sarmento,Jose Das Neves,2018-03-01 Biomedical Applications of Functionalized Nanomaterials Concepts Development and Clinical Translation presents a concise overview of

the most promising nanomaterials functionalized with ligands for biomedical applications The first section focuses on current strategies for identifying biological targets and screening of ligand to optimize anchoring to nanomaterials providing the foundation for the remaining parts Section Two covers specific applications of functionalized nanomaterials in therapy and diagnostics highlighting current practice and addressing major challenges in particular case studies of successfully developed and marketed functionalized nanomaterials The final section focuses on regulatory issues and clinical translation providing a legal framework for their use in biomedicine This book is an important reference source for worldwide drug and medical devices policymakers biomaterials scientists and regulatory bodies Provides an overview of the methodologies for biological target identification and ligand screening Includes case studies showing the development of functionalized nanomaterials and their biomedical applications Highlights the importance of functionalized nanomaterials for drug delivery diagnostics and regenerative medicine applications

Folded Synthetic Peptides for Biomedical Applications Alessandro Contini,Jutta Eichler,2019-09-26 Folded peptides and peptide motifs within proteins are abundant in living organisms where they are essential for the biological activities of the peptides and proteins During the past decades much research has been dedicated to understanding the rules that govern peptide folding Simultaneously a range of strategies have been established for the conformational stabilization of bioactive peptides as well as for the de novo design of peptides with defined secondary structures These methods are either based on the chemical modification of the peptide backbone such as cyclization and stapled peptides or on the use of a range of non proteinogenic amino acids that in a defined sequential arrangement induce secondary structures peptides Such building blocks include D and other non proteinogenic amino acids as well as beta and gamma amino acids This Research Topic comprises a collection of papers by an international group of 77 scientists with a background in synthetic analytical computational and medicinal chemistry as well as in biochemistry and pharmacology Their research is presented here in a total of 11 papers 8 original research reports and 3 reviews covering diverse aspects of folded synthetic peptides These studies include the preparation and characterization of new peptide monomers with interesting folding properties the synthesis and conformational analysis of non natural peptides as well as the use of folded peptidomimetics as molecular switches Additionally a range of biomedical applications such as antimicrobial anti inflammatory antiangiogenic and immune stimulating activities are also reported We hope this eBook will be a source of inspiration and knowledge for scientist in various disciplines related to folded peptides and their many applications as well as for those who want to learn more about this fascinating field of research

Bio-based Superabsorbents Sukanya Pradhan,Smita Mohanty,2023-06-21 This book examines the synthetic approaches properties applications and recyclability of bio based superabsorbent polymers SAP in depth It describes and compares bio based SAPs with petro based SAPs Additionally it explores the structure property relationships of bio based SAPs derived from various natural sources The book covers current and emerging applications in health and hygiene products agriculture construction and other areas It also

explores the recycling and reusing methods available for water recovery pressure sensitive adhesives etc It discusses the issues behind the sharp increase in research attention namely the prevailing research hotspots clusters and suggestions with regard to present studies works that have been significant and pivotal in the development of SAP research and the current advances and future directions of research It also presents the emerging applications of superabsorbent polymers

Applications of Seaweeds in Food and Nutrition Daniel Ingo Hefft, Charles Oluwaseun Adetunji, 2023-09-07

Applications of Seaweeds in Food and Nutrition provides an overview on the cultural biological and engineering dimensions relating to seaweed as a food With the need for sustainable and healthy foods growing this comprehensive resource explores how seaweeds can deliver not only nutritional benefits but also antiviral and antibacterial properties as a food additive and within food processing and manufacturing Recent developments show that the use of seaweed extracts as a compound can prevent browning Its use in other areas such as a thickening and gelling agents in foods and cosmetics is also encouraging There are hundreds of different varieties of seaweed known to mankind yet very little literature is available on the processing of these crops This book provides these valuable and practical insights Introduces the origin of seaweed consumption and its biology Examines common seaweed varieties of industrial interest and their chemical composition Explores the potential of robotics and AI techniques in seaweed aquaculture
