Apportionment Of Blame:

Admiralty Jurisdiction and Practice Nigel Meeson, John Kimbell, 2013-06-19 Admiralty Jurisdiction and Practice is the definitive work on litigation in the Admiralty Court providing in depth analysis and explanation of jurisdiction practice and procedure forms and precedents It deals with several issues not covered elsewhere including the impact of insolvency the interplay between the jurisdiction and practice the series of rules on jurisdiction laid down by international conventions limitation periods and collision action rules The fourth edition has been updated comprehensively to include new case law and changes in Commercial Court practice and procedure Admiralty Jurisdiction and Practice is an invaluable reference source for anyone concerned with admiralty law *Poole's Casebook on Contract Law* Robert Merkin, Severine Saintier, 2019 All the cases you need together with the tools to understand them Now updated by Professor Robert Merkin and Dr Severine Saintier Poole's Casebook on Contract Law takes a uniquely supportive approach to give you the confidence to engage with and analyse judgments *Thinking Through Systems Thinking* Ion Georgiou, 2013-01-11 Systemicity is receiving wider attention thanks to its evident paradox On the one hand it occurs as a problem with complex symptoms On the other it is sought after as an approach for dealing with the non linear reality of the world At once problem and prize systemicity continues to confound This book details the mechanics of this paradox as they arise from human epistemological engagement with the world Guided by an original analysis of the fundamental idea of emergent property Thinking Through Systems Thinking uncovers the distinct significance but also incompleteness of the systems approach as a theory of human epistemological engagement The incompleteness is treated through a non eclectic interdisciplinary investigation which meets ten distinctly developed criteria required of any potential interdisciplinary partner to systems thinking There results a theory of knowledge an epistemology which is systemic in both senses of the term it belongs to the general systems movement and it is systemically structured The systems movement is thus offered a distinct epistemological voice which can compete on equal ground with other philosophical epistemological positions In true systemic fashion this theory of knowledge also offers methodological ethical and existential implications **Poole's Casebook on Contract Law** Robert Merkin, Séverine Saintier, 2023 All the cases you need together with the tools to understand them This contract casebook presents all the leading cases supplemented by succinct author commentary and thought provoking questions to deepen understanding Poole's Casebook on Contract Law takes a uniquely supportive approach to give students the confidence to engage with and analyse judgments Digital formats and resources The sixteenth edition is available for students and institutions to purchase in a variety of formats and is supported by online resources The e book offers a mobile experience and convenient access along with functionality tools navigation features and links that offer extra learning support a href <http://www.oxfordtextbooks.co.uk/ebooks> A selection of online resources accompanies this text including Exercises and guidance on reading cases *Poole's Casebook on Contract Law* Robert Merkin QC, Robert M.
