Void Fate: A Novel Suren G. Hakobyan, 2020-06-17 Empty streets are littered with stalled out cars buses and motorcycles A sunless and moonless sky is covered with an enormous barrier that prevents any view of the heavens Nothing stirs The air is oppressive and there is no wind not even the softest breeze It was supposed to be a typical day for the five friends but they wake up to discover that they are left alone on earth The world that they knew is gone All that is left is silence pervasive absolute silence What happened while they slept Are they the only ones left As the theories start to fly and their imaginations run wild they wonder if they are still on Earth at all possibly abducted by aliens trapped in a simulation or claimed by the afterlife Aram is the only one who can see deep into the silent world That's why from the very beginning he starts to look for a way out of this new reality If he can convince his friends to stay focused as the whispers begin and fight against the evil of the silent world the fog shaped beings that wander the empty streets they may stand a chance If not the only thing that lies ahead is the fate of the void

Introduction to Development Economics Marco Missaglia, Gianni Vaggi, 2025-03-21 This textbook provides an introduction to development economics that examines both the drivers of economic growth and sustainable development It initially presents development economics within a historical and political context before widening its attention to theories of growth and development the importance of the Sustainable Development Goals the imbalance of power between the Global North and South global development policies and the role of international finance in development Rather than focusing primarily on neoclassical growth theories qualitative and quantitative aspects of the development process are both highlighted This book aims to give readers a broad understanding of the economic drivers of development and the economic theories that underpin them It will be relevant to undergraduate

and postgraduate students interested in development economics and sustainable development **Brave new words** Jeff Prucher, **Lucan's Imperial World** Laura Zientek, Mark Thorne, 2020-02-06 These new essays comprise the first collective study of Lucan and his epic poem that focuses specifically on points of contact between his text and the cultural literary and historical environments in which he lived and wrote The Bellum Civile Lucan's poetic narrative of the monumental civil war between Julius Caesar and Pompey Magnus explores the violent foundations of the Roman principate and the Julio Claudian dynasty The poem composed more than a century later during the reign of Nero thus recalls the past while being very much a product of its time This volume offers innovative readings that seek to interpret Lucan's epic in terms of the contemporary politics philosophy literature rhetoric geography and cultural memory of the author's lifetime In doing so these studies illuminate how approaching Lucan and his text in light of their contemporary environments enriches our understanding of author text and context individually and in conversation with each other
