*Can Themba* Siphiwo Mahala, 2022-03-30 Mahala's biography gives insight into the life and writing of Can Themba 1924-1967, an iconic figure of the South African literary world and Drum journalist who died in exile. Can Themba: The Intellectual Tsotsi a Biography brings to life the iconic South African writer and journalist Can Themba (21 June 1924 – 8 September 1967) who died while exiled in Swaziland in 1967. Best known for his classic short story 'The Suit', Themba has been somewhat of an enigma with very little known about his personal life. This biography brings forth the voices of those who had personal interactions with him, shining the light on different aspects of his life including education, literature, journalism, and political fraternities. It features interviews with prominent individuals including his former students Abdul Bham Pitika Ntuli and Mbulelo Mzamane, journalistic mentees Juby Mayet and Joe Thloloe, as well as friends, colleagues, and contemporaries Parks Mangena, Peter Magubane, Jurgen Schadeberg, Don Mattera, and Nadine Gordimer, in addition to artists and academics Mothobi Mutloatse, Muxe Nkondo, and Njabulo S. Ndebele. Also featured in this biographical text are veteran political figures such as Mangosuthu Buthe, Lezi Lindiwe Mabuza, and Ahmed Kathrada. Themba's intellectual acumen, scholarly aptitude, and wit are some of his most revered characteristics amongst those who had interactions with him, either in person or through comprehensive reading of his works. Mahala is a master storyteller and deftly weaves together the threads of Themba's dynamic life. In this edifying biography, Mahala recreates the sparkle and pathos of Sophiatown of the 1950s and the Drum era. Can Themba's successes and failures, as well as his triumphs and tribulations, reverberate on the pages of this long-awaited biography.

Anchored in Place Bank, Leslie, Cloete, Nico, 2018-11-05. Tensions in South African universities have traditionally centred around equity, particularly access and affordability, historical legacies such as apartheid and colonialism, and the shape and structure of the higher education system. What has not received sufficient attention is the contribution of the university to place-based development. This volume is the first in South Africa to engage seriously with the place-based developmental role of universities. In the international literature and policy, there has been an increasing integration of the university with place-based development, especially in cities. This volume weighs in on the debate by drawing attention to the place-based roles and agency of South African universities in their local towns and cities. It acknowledges that universities were given specific development roles in regions, homelands, and towns under apartheid and comments on why sub-national place-based development has not been a key theme in post-apartheid higher education planning. Given the developmental crisis in the country, universities could be expected to play a more constructive and meaningful role in the development of their own precincts, cities, and regions. But what should that role be? Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework? What plans and programmes are in place, and what is needed to expand the development agency of universities at the local level? Who and what might be involved? Where should the focus lie, and who might benefit most, and why? Is there a need, perhaps, to approach the challenges

of college towns secondary cities and metropolitan centers differently This book poses some of these questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges Smart Cities and Smart Spaces: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2018-09-07 As populations have continued to grow and expand many people have made their homes in cities around the globe With this increase in city living it is becoming vital to create intelligent urban environments that efficiently support this growth and simultaneously provide friendly and progressive environments to both businesses and citizens alike Smart Cities and Smart Spaces Concepts Methodologies Tools and Applications is an innovative reference source that discusses social economic and environmental issues surrounding the evolution of smart cities Highlighting a range of topics such as smart destinations urban planning and intelligent communities this multi volume book is designed for engineers architects facility managers policymakers academicians and researchers interested in expanding their knowledge on the emerging trends and topics involving smart cities Public Relations Management in Africa Volume 2 Albert A. Anani-Bossman,Takalani E. Mudzanani,Cornelius B. Pratt,Isaac A. Blankson,2023-07-19 This two part volume the first of its kind examines current pedagogical modules and research directions in public relations and communication management identifying emerging issues driving the practice in Africa In comparison to its Western and Asian counterparts literature on public relations management in Africa is limited and much of it is examined through the lenses of Western philosophies and pedagogies failing to reflect Africa s socioeconomic political and cultural contexts This project aims to change that Albert Volume 2 brings together African scholars moving beyond organizational impact to share the wider theoretical and practical perspectives on the practice of public relations on the continent within its cultural global and technological milieu Through conceptual discussions and empirical analyses this volume shows how Africa is gradually coming out of the shadows of the Western world by building a body of knowledge that reflects the nature of public relations management on the continent Chapters cover how public relations contributes to strategic management in Africa health communication and public relations management strategic management of issues as well as the implications of the fourth industrial revolution for public relations practice in Africa , Cyber Warfare and Terrorism: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2020-03-06 Through the rise of big data and the internet of things terrorist organizations have been freed from geographic and logistical confines and now have more power than ever before to strike the average citizen directly at home This coupled with the inherently asymmetrical nature of cyberwarfare which grants great advantage to the attacker has created an unprecedented national security risk that both governments and their citizens are woefully ill prepared to face Examining cyber warfare and terrorism through a critical and academic perspective can lead to a better understanding of its foundations and implications Cyber Warfare and Terrorism Concepts Methodologies Tools and Applications is an essential reference for the latest research
