Annual Performance Plan Mpumalanga (South Africa). Department of Education, 2016 **Annual Report** Mpumalanga (South Africa). Department of Education, 2017 **ECGBL2015-9th European Conference on Games Based Learning** Robin Munkvold and Line Kolås, 2015-09-18 These proceedings represent the work of researchers participating in the 9th European Conference on Games Based Learning which is being hosted this year by Nord Trondelag University College Steinkjer Norway on the 8-9 October 2015. The Conference has become a key platform for individuals to present their research findings, display their work in progress, and discuss conceptual advances in many different areas and specialties within Games Based Learning. It also offers the opportunity for like-minded individuals to meet, discuss, and share knowledge. ECGBL continues to evolve and develop, and the wide range of papers and topics will ensure an interesting two-day conference. In addition to the main streams of the conference, there are mini tracks focusing on the areas of the design of multiplayer collaborative serious games, applied Games and gamification, the teacher's role in game-based learning, games for STEM, Science, Technology, Engineering, Mathematics, learning, assessment of digital game-based learning, and pervasive and ubiquitous gaming for learning. In addition to the presentations of research, we are delighted to host the third year of the Serious Game competition, which provides an opportunity for educational game designers and creators to participate in the conference and demonstrate their game design and development skills in an international competition. This competition is again sponsored by SEGAN Serious Games Network. With an initial submission of more than 60 games, 28 finalists will present their games at the conference. Prizes will be awarded to the games judged to demonstrate the best quality and originality of game play itself and the positioning and articulation of the game's contribution to the educational domain. With an initial submission of 190 abstracts, after the double-blind peer review process, there are 75 research papers, 15 PhD research papers, 4 Non-Academic papers, and 8 work-in-progress papers published in these Conference Proceedings. These papers represent research from more than 40 countries, including Australia, Austria, Belgium, Brazil, Bulgaria, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Israel, Italy, Japan, Malaysia, Norway, Portugal, Russia, Saudi Arabia, Slovakia, Slovenia, South Africa, Spain, Sweden, Switzerland, Taiwan, ROC, The Netherlands, The Netherlands, United Arab Emirates, UK, and USA. **Textbook for the Adult-Gerontology Acute Care Nurse Practitioner** Valerie J. Fuller, Paula S. McCauley, 2023-02-13 Nearly 100 expert authors who discuss the evidence-based gold standards for diagnostics and tests for optimal detection of multisystem disorders, patient management, and transitions of care. In these chapters, learners will gain greater understanding of the etiology and pathophysiology of acute and critical illnesses and the latest in advanced pharmacologic and nonpharmacologic therapies. We congratulate the Editors and chapter authors for their efforts in developing a clearly outlined and accurate text for AGACNP use. Truly the first of its kind. April N. International Higher Education's Scholar-Practitioners

Bernhard Streitwieser, Anthony C. Ogden, 2016-03-01 The idea of the professional who bridges both research and practice has been largely overlooked and at times even disregarded by the academic and administrative structures that govern activity in higher education today In international higher education the number of students who now engage in mobility and exchange has expanded globally along with the administrative cadre that manages all facets of internationalization and the quickly growing scholarly attention to understanding the phenomenon In this process two distinct professional categories have emerged those who study it and those who do it the scholars and the practitioners Practitioners are seen as those who manage the daily logistical flow of students and personnel around the globe while scholars are seen as those who conduct research collect and analyze data and publish findings to inform improve and justify the activity Yet this dichotomy is overly simplistic outdated and excludes the large and growing class of hybrid scholar practitioners who now engage regularly in both kinds of activity It is this rapidly growing population of bridge builders that are profiled and discussed in this book through critical essays on the notion of the scholar practitioner and its implication for the further development of international higher education The chapters include detailed analyses from university faculty senior international officers and other high level administrators directors of research centers key leaders from influential professional associations and private organizations managers of study abroad and exchange and graduate students This book launches a much needed dialogue about the perception and reality potential and promise of the scholar practitioner in higher education today It will be of relevance to a wide variety of readers from those within universities and organizations to those who are outside observers of higher education

EHealth2015 - Health Informatics Meets EHealth D. Hayn, G.

Schreier, E. Ammenwerth, 2015-06-11 Traditionally medicine has involved therapies chosen according to clinical guidelines often arrived at through clinical trials which categorized patients into patient groups Such clinical guidelines would dictate that all patients within a specific group should be treated in exactly the same way More recently the paradigm has shifted

towards personalized medicine and in future individual treatment plans will depend more on the specific characteristics of individual patients including genomic data This book presents the proceedings of the 9th scientific eHealth conference the eHealth Summit Austria held in Vienna Austria in June 2015 Among the main topics addressed at the conference were active and ambient assisted living AAL eHealth education electronic patient and health records ethical legal and economic aspects of eHealth ICT for integrated treatment research and personalized medicine patient portals and personal health records semantic interoperability of information systems and visualization of clinical or epidemiological data One of the first fields of application for personalized medicine has been oncology with current diagnostic tools including molecular risk factors biomarkers and individual genomes The next step in personalized medicine will be to extend these to a more general personalized health approach Such individual risk assessment and preventive strategies promise to have a huge impact on our healthcare systems and this book will be of interest to all those involved in healthcare research provision and practice
