It is better to hyperextend your arms than to let your shoulders be "rounded" with poor posture and thus they will grow softer than your good shoulders. I think that the upper back joints will be more rounded than the lower back joints. I think that the lower back joints will be more rounded than the upper back joints.

5. Explain the differences in reproductive growth patterns of the two *C. asperum* species. What does this tell you about the functional traits that make each species successful? The students will have access to the online version of the *Plant Functional Traits* database.

1. There has been a great deal of discussion about the importance of population, some treating the latter as a hindrance. But this attitude suggests the possibility of compensating technology. It is thus necessary to study the effects of technological change on the environment. This is the main objective of the present study.
