RE: Dissolution of marriage – Discovery requests

Dear <client>

Enclosed are Interrogatories and Request for Production of Documents, which we received from your spouse's attorney, <spouse's attorney's name>.

Interrogatories are written questions to which you must provide answers that are truthful. I would like you to go through the questions and provide written answers to each of the questions. If you don't understand a question, please call and we will help you with it.

In answering the Interrogatories, I have found that it is extremely helpful if my clients list their answers on separate paper, following the format of the Interrogatories. Well-organized, thoughtful responses will result in a significant financial savings for you for two reasons. When my staff and I draft your formal responses, it will take us less time if your answers are well organized and complete. Unorganized answers that have not received your full attention can often result in office staff having to spend four or five hours of additional work to prepare the responses, resulting in a substantially higher bill for attorney and staff services rendered.

The Request for Production of Documents sets forth documents which you must make available for your spouse's attorney to inspect, if you have the documents in your possession. I would like you to organize the documents and bring or send them to this office with your answers to the Interrogatories. I have also found that it saves staff time if the client organizes the requested documents in bundles that correspond to each of the numbered requests. For example, put all of the documents pertinent to Request No. 1 in one bundle, the documents for Request No. 2 into a separate bundle, etc. This organization would ultimately have to be done by the staff, and it is helpful, and will keep your costs down, if you have already assisted us by doing so.

You are technically obligated to provide the formal answers to the other attorney's office within thirty days from the date they have been received by my office. The documents were received on <date>. Therefore, it would be helpful if you could organize your answers to the Interrogatories and the Production of Documents no later than <date>. If this is not possible, please contact me to let

Fundamentals of California Litigation for Paralegals Marlene A. Maerowitz, Thomas A. Mauet, 2007-06-22 The new edition of Maerowitz and Mauet's *Fundamentals of California Litigation for Paralegals* gives students a complete explanation of California specific litigation. Clearly written with the student in mind, the text makes the material accessible while the accompanying workbook and forms put theory into practice. These features make this text an appealing choice. It offers a complete understanding of the litigation process from the time the client walks into the office through trial and post judgment including settlements and alternative forms of resolutions. A balanced approach neither oversimplifies the litigation process nor clouds the educational course with excessive information. Pedagogical aids such as bold faced terms defined in the glossary, examples, charts, and checklists, sample documents, chapter overviews, and summaries and review questions are featured throughout the text, tailored to the California rules, with each chapter referencing the specific California statute where more information can be found and California forms included throughout. It provides opportunities for the instructor to pick and choose which areas to emphasize. A workbook on CD accompanies the text and includes five case scenarios based on California law along with associated Judicial Council forms to be used as practical exercises. Instructor's Manual provides answers to the questions posed in the workbook and book as well as a test bank of questions that include true/false, short answer, and essay questions so that the instructor can choose the type of test to give. Projects for research and writing, sample forms, and suggested course outlines are also included. Changes to the Third Edition include chapters on motions and discovery tools have been broken down into separate sections so that they are both easier for the student to understand and digest and easier for the instructor to teach. Depositions, interrogatories, and document production have been included and demurrers, motions to strike, and summary judgment have been broken out into separate sections. More information included on litigation management systems and how to use such systems to index and retrieve documents in large cases reflects most recent changes in the California rules. This student friendly text offers a teachable approach to the subject of California litigation. The content is neither oversimplified nor saturated with excess information which allows for a smooth introduction. *Fundamentals of California Litigation for Paralegals* Third Edition offers a complete understanding of the litigation process allowing students to walk away with a firm understanding of the complete picture.
