Discrimination based on Colour, Ethnic Origin, Language, Religion and Belief in Turkey's Education System Nurcan Kaya, 2015-10-27 The Turkish government is urged to make a fundamental shift in its approach to education by Minority Rights Group International MRG in a new report A long standing focus on state building has been supplemented by increasing emphasis on religious teaching Both feature strongly in the education system in Turkey making schools a focus of discrimination The report Discrimination based on Colour Ethnic Origin Language Religion and Belief in Turkey's Education System reveals evidence of discrimination of minority groups and suggests comprehensive reforms to effectively ensure equality The national education system which for decades aimed to create young Turkish nationalists has in recent years become a vehicle for raising young religious Turkish nationalists says Nurcan Kaya Turkey Coordinator of Minority Rights Group International Religious education is compulsory from grade four in primary schools While some information on world religions has been introduced the emphasis remains on teaching Sunni Muslim religious practices Children of Jewish and Christian families may apply to opt out but the process can be cumbersome and in many schools alternatives are not provided for them Non Muslim students who have opted out can still find themselves having to remain in the religious instruction class or alternatively having to wander in the school corridor making them vulnerable to taunts from pupils and even teachers The opt out possibility is still not available to children of other minorities Another issue is mother tongue education In 2012 a new elective on the living languages and dialects in Turkey was introduced but due to various limitations minorities remain marginalised others in the education system Subsequent to the 2012 reform the report monitors discrimination in the formal education system in the period of the academic year of 2014 2015 The findings are based on the field work of the Monitoring Discrimination in Education Network an alliance of 16 organizations working in Turkey The report compiles numerous cases of discrimination based on language religion ethnicity skin colour and the level of income In order to bring about a fundamental solution to these problems in the education system the government must prioritise developing an approach that sees all groups as equal and that responds to demands for rights based on such an understanding of equality says Kaya The report highlights that Turkey has no anti discrimination law or an equality commission to which victims of discrimination can apply The existing legislation contains no effective and accessible means of judicial remedies or compensation Therefore many discriminatory practices are not reported to school administrations The

entire education system is based on Turkishness Non Turkish groups are either not referred to or referred in a negative way says Kaya Education system has played a significant role in deepening conflict in society The positive representation of other groups in the education system would contribute to social peace and harmony In order to resolve the many problems in the education system that the current approach causes the overall aim of government education policy should be cleared of ideological references and the protection of children s best interests and the right to education in line with international standards should be considered its fundamental goal says the report

[The Test](#) Anya Kamenetz,2015-01-06 The anti testing movement now has a guidebook Kamenetz shows how fundamentally American it would be to move toward a more holistic system New York Times Book Review The Test is an essential and critically acclaimed book for any parent confounded by our national obsession with standardized testing It recounts the shocking history and tempestuous politics of testing and borrows strategies from fields as diverse as games neuroscience and ancient philosophy to help children cope It presents the stories of families teachers and schools maneuvering within and beyond the existing educational system playing and winning the testing game And it points the way toward a hopeful future of better tests and happier kids

[Intelligent Testing with the WISC-V](#) Alan S. Kaufman,Susan Engi Raiford,Diane L. Coalson,2015-12-29 Interpret the WISC V to help diagnose learning disabilities and to translate profiles of test scores to educational action The Wechsler Intelligence Scale for Children Fifth Edition WISC V is a valuable tool for assessing children and adolescents with learning disorders and Intelligent Testing with the WISC V offers the comprehensive guidance you need to administer score and interpret WISC V profiles for informing diagnoses and making meaningful educational recommendations This essential resource provides you with cutting edge expertise on how to interpret the WISC V which has an expanded test structure additional subtests and an array of new composites Intelligent Testing offers valuable advice from experienced professionals with regard to clinically

applying the WISC V in an effort to understand a child's strengths and weaknesses and to create a targeted appropriate intervention plan. Ultimately, this book equips you with the information you need to identify the best theory-based methods for interpreting each child's profile of test scores within the context of his or her background and behaviors. Intelligent Testing provides a strong theoretical basis for interpreting the WISC V from several vantage points such as neuropsychological processing theory and the Cattell-Horn-Carroll (CHC) model, yet it permits you to interpret children's profiles using simple, straightforward steps. The most frequently used IQ test in the world, the WISC V, like previous versions of the WISC, plays an integral role in evaluating children for learning and intellectual disabilities, developmental and language delays, and gifted and talented classifications. As such, understanding how to use the latest version of WISC is extremely important when assessing children and adolescents ages 6 to 16 years. Explore all aspects of both the conventional WISC V and WISC V Digital Read objective independent test reviews of the WISC V from independent, highly respected expert sources. Review 17 clinical case reports that spotlight experiences of children and adolescents referred to psychologists for diverse reasons such as reading problems, specific learning disabilities, ADHD, intellectual giftedness, and autistic spectrum disorders. Learn how a broad-based, multi-faceted approach to interpretation that calls upon several scientific concepts from the fields of cognitive neuroscience, clinical and school neuropsychology, neuropsychological processing, and the CHC model can benefit children by providing meaningful recommendations to parents, teachers, and often to the children and adolescents themselves. Use the results of WISC V as a helping agent to assist in creating the best intervention plan rather than allowing test results to dictate placement or labeling. Intelligent Testing with the WISC V is an indispensable resource for professionals who work with the WISC V, including school psychologists, clinical psychologists, educational diagnosticians, and more.

An Evaluation of the Public Schools of the District of Columbia, National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Committee for the Five-Year (2009-2013) Summative Evaluation of the District of Columbia Public Schools, 2015-08-31. An Evaluation of the Public Schools of the District of Columbia is a comprehensive five-year summative evaluation report for Phase Two of an initiative to evaluate the District of Columbia's public schools. Consistent with the recommendations in the 2011 report *A Plan for Evaluating the District of Columbia's Public Schools*, this new report describes changes in the public schools during the period from 2009 to 2013. An Evaluation of the Public Schools of the District of Columbia examines business practices, human resources, operations, and human capital strategies, academic plans, and student achievement. This report identifies what is working well seven years after legislation was enacted to give control of public schools to the mayor of the District of Columbia and which areas need additional attention.
