Drawing on research into conversational analysis and non-verbal behaviour such as body movement and gaze, it also considers the role of the material world in our interactions, exploring how we use space and objects such as our furniture and clothes to express ourselves. Considering a range of real examples such as traffic police officers at work, doctor-patient meetings, teachers and students, and friends reading magazines together, the book offers lively demonstrations of multimodal discourse at work. Illustrated throughout and featuring a mini glossary in each chapter, further reading and advice on practical issues such as making transcriptions and video and audio recordings, this practical guide is an essential resource for anyone interested in the multiple modes of human interaction.
