Anna University Web Technology Paper With Answer:

TEACHING AND LEARNING WITH EMERGING TECHNOLOGY: A Future Perspective Dr. P. Muthukumar, Dr. A.R.S. Kannan, Dr. K. Malini, This edited book focuses on the possible education responses that can be implemented in future education times. The impact of technology on learning and teaching is often at the forefront of demands particularly from those who dictate the funding available to pay for technology within education systems. This is not an unreasonable request and there is merit in impact evaluations of educational technologies including emerging technologies. Besides it also shows how emerging technologies including Artificial Intelligence, Blockchain, Educational Games and Virtual Reality Augmented Reality will reshape the future of education to provide efficient learning teaching experiences and assessments. Furthermore the book discusses innovative teaching and learning approaches e.g. the use of open educational practices and peer to peer learning that can be applied in this rapidly moving technological era to maintain education including in unconditional times. Particularly new instructional methods such as game based learning should be designed based on integrated technologies to provide an effective learning experience resulting in better learning outcomes. Future education should not solely focus on technology and psychology but also on the applied instructional methods as well as the human touch to maintain authentic and effective learning experiences. The book also discusses how teaching and learning can be designed to meet the growing tendency of Open and Distance Education where thousands of learners can be taken the same course from different cultures backgrounds and learning needs. This book aims to establish itself through the published books textbooks and research as a medium to provide guidelines and recommendations for different stakeholders including policymakers educational designers teachers and students on how to enhance both learning and teaching experiences in the future for better learning outcomes as well as how to maintain education in emergency times. It also provides one step ahead towards future education to prepare different stakeholders for the rapid evolution of education even in times of emergency and difficult situations.
