Undergraduate Mathematics for the Life Sciences Glenn Ledder, Jenna P. Carpenter, Timothy D. Comar, 2013 There is a gap between the extensive mathematics background that is beneficial to biologists and the minimal mathematics background biology students acquire in their courses The result is an undergraduate education in biology with very little quantitative content New mathematics courses must be devised with the needs of biology students in mind In this volume authors from a variety of institutions address some of the problems involved in reforming mathematics curricula for biology students The problems are sorted into three themes Models Processes and Directions It is difficult for mathematicians to generate curriculum ideas for the training of biologists so a number of the curriculum models that have been introduced at various institutions comprise the Models section Processes deals with taking that great course and making sure it is institutionalized in both the biology department as a requirement and in the mathematics department as a course that will live on even if the creator of the course is no longer on the faculty Directions looks to the future with each paper laying out a case for pedagogical developments that the authors would like to see Life Sciences in Transition Halldor Stefansson, 2002-08-30 These essays grew out of an effort at the EMBL to promote a new form of science communication on the social ethical and political issues that surround rapid change in the life sciences Published in the Journal of Molecular Biology these eighteen essays address the main topics of the future of the biosciences biosciences and basic values genomics and the globalization of biology science miscommunication and reproductive technologies Hot topics such as cloning genomics reproductive technologies health care costs are addressed Key Features Significant to those in the life sciences and social sciences Features an Introduction by Halldor Stefansson Published in conjunction with the prestigious European Molecular Biology Laboratory EMBL **Parallel Curriculum Units for Science, Grades 6-12** Jann H.
