Tools of American Mathematics Teaching, 1800-2000 Peggy Aldrich Kidwell, Amy

Ackerberg-Hastings, David Lindsay Roberts, 2008-08-11 From the blackboard to the graphing calculator the tools developed to teach mathematics in America have a rich history shaped by educational reform technological innovation and spirited entrepreneurship In *Tools of American Mathematics Teaching 1800 2000* Peggy Aldrich Kidwell Amy Ackerberg Hastings and David Lindsay Roberts present the first systematic historical study of the objects used in the American mathematics classroom They discuss broad tools of presentation and pedagogy not only blackboards and textbooks but early twentieth century standardized tests teaching machines and the overhead projector tools for calculation and tools for representation and measurement Engaging and accessible this volume tells the stories of how specific objects such as protractors geometric models slide rules electronic calculators and computers came to be used in classrooms and how some disappeared

The Comprehensive Handbook of Constructivist Teaching James Pelech, 2010-02-01 While many people talk about the

Constructivist philosophy there has not been a publication that provides a detailed description of what a Constructivist

classroom sounds like and looks like This book fills that void by examining the philosophy translating it into teaching strategies and providing over forty examples These examples come from the elementary level up to and including the collegiate level and include all content areas These examples show how the Constructivist educator uses the linguistic mode the visual mode and the kinesthetic mode to create a class environment in which the Constructivist philosophy flourishes Examples of student work are provided the book also includes chapters on note taking Problem Based Learning PBL action research and other Constructivist resources Written in user friendly form this book presents a concrete and step by step approach for translating the Constructivist philosophy into classroom practice This book is intended for every Constructivist researcher practitioner and teacher educator The researcher and teacher educator will benefit from topics such as the history of Constructivist thought the principles of Constructivism and action research This book is more than a list of recipes and this will be beneficial to the practitioner Starting with the principles of Constructivism and bridging to four basic teaching strategies the practitioner is guided on how to use different learning modes and meta strategies to create a true Constructivist practice An educator s life is made up of one s philosophy teaching principles daily strategies resources and research tools This book provides an in depth look from the Constructivist perspective at each one of these components In every sense of the word this book is truly comprehensive
