

Alien Periodic Table

Introduction

Imagine that inhabitants of another planet send a message to Earth that contains information about 30 elements. However, the message contains different names and symbols for these elements than those used on Earth. Which elements on the periodic table do these "alien" names represent?

Objective:

To draw conclusions about the Earth names of the alien elements based on atomic number.
To classify elements based on their properties.
To infer the position of the elements on the periodic table.

Materials

- periodic table for reference

Procedure

1. Listed below are data on the chemical and physical properties of the 30 elements. Use the clues to determine which Earth elements correspond to the "alien" ones. Place the elements in their proper position in the blank periodic table (three are given in case of mistakes – **Only the bottom will be graded – make sure it is neat and fully complete!!!**).
 - The noble gases are bombal (Bo), wobble (Wo), jeptum (J), and logon (L). Among these gases, wobble has the greatest atomic mass and bombal the least. Logon is lighter than jeptum.
 - The most reactive group of metals are xtalt (X), byyou (By), chow (Ch), and quackzil (Q). Of these metals, chow has the lowest atomic mass. Quackzil is in the same period as wobble.
 - Apstrom (A), vulcania (V), and kratt (Kt) are nonmetals whose atoms typically gain or share one electron. Vulcania is in the same period as quackzil and wobble.
 - The metalloids are ernst (E), highho (Hi), terriblum (T), and sississ (Ss). Sississ is the metalloid with the greatest atomic mass. Ernst is the metalloid with the lowest atomic mass. Highho and terriblum are in Group 14. Terriblum has more protons than highho. Yazzer (Yz) touches the zigzag line, but it's a metal, not a metalloid.
 - The lightest element of all is called pfsst (Pf). The heaviest element in the group of 30 elements is eldorado (El). The most chemically active nonmetal is apstrom. Kratt reacts with byyou to form table salt.

The Deep, Wide, and Dark Dewey D. White, 2011-12-27 Venture into the blackness of space with Dewey D White's well wrought *The Deep Wide and Dark* The science is nothing short of sorcery as an extra terrestrial humanoid named John Jay Corsey gives mankind a dimensional boost from Einstein's quantum theory for the love of a twenty year old stripper With science heretofore unknown to humans but which was found to be related to the alien spacecraft that crash landed near Roswell New Mexico Corsey becomes the center of a massive project to build the first faster than light starship to take flight into universa incognita searching for two unearthly elements but quickly more than rocks are found by the newly minted Space Marine Corps Corsey found mankind specifically the U S government unprepared but willing to build the machine They jumped right in to the project with the verve and gusto typical of modern man cobbling

together human and extra terrestrial science to make it a shining reality On a fenced in 200 sq mile swath of Arizona New Mexico desert Sol Base One is built The nascent masters of the deep wide and dark universal empyrean the Space Marines Corps recruits the best minds and bodies to man the Terrain Explorer the first starship in human history The rush to build it becomes a race as world politics views it as an unwise decision and prepares to stymie the ships launch after the Space Marines crafty commandant refuses to reveal the program and its intentions The next decision made is to launch the mission 425 men on board the Terrain Explorer before the U N could send in inspection teams And thus the fate of humanity's first venture into the stars is sealed Join Capt Jackson Edison Jed Devlon and the crew of the Terrain Explorer in what promises to be a thrilling masterful exploration of the possibilities of time and space Will they land on earth like worlds such as humanity knows therefore solidifying the fact of infinite replication in the universe Who amongst the extra terrestrial races will they meet and who will be their friend or enemy How will they survive The permutations grip readers with excitement The writing is riveting in detail and shines with crystal clear believability The future is at stake
