Clifford Lane

Aliens Anonymous English Edition:

Dictionary of Anonymous and Pseudonymous English Literature Samuel Halkett, 1971 *Three Ways to be Alien* Sanjay Subrahmanyam, 2011 A study of individual trajectories in an early modern global context **Impossible Joyce** Patrick O'Neill, 2013-01-01 James Joyce's *Finnegans Wake* has repeatedly been declared to be entirely untranslatable. Nonetheless it has been translated, transposed or transcreated into a surprising variety of languages including complete renditions in French, German, Portuguese, Dutch, Japanese and Korean and partial renditions in Italian, Spanish and a variety of other languages. *Impossible Joyce* explores the fascinating range of different approaches adopted by translators in coming to grips with Joyce's astonishing literary text. In this study Patrick O'Neill builds on an approach first developed in his book *Polyglot Joyce* but deepens his focus by considering *Finnegans Wake* exclusively. Venturing from Umberto Eco's assertion that the novel is a machine designed to generate as many meanings as possible for readers, he provides a sustained examination of the textual effects generated by comparative readings of translated excerpts. In doing so, O'Neill makes manifest the ways in which attempts to translate this extraordinary text have resulted in a cumulative extension of *Finnegans Wake* into an even more extraordinary macrotext encompassing and subsuming its collective renderings. **Report from the Select Committee on the Laws Affecting Aliens and Index** Anonymous, 2025-08-07 Reprint of the original first published in 1843. The Antigonos publishing house specialises in the publication of reprints of historical books. We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage. *Alien Among Anxious Artists* Dennis Parks, 2011-01-21 **Aliens and Englishness in Elizabethan Drama** Lloyd Edward Kermode, 2009-03-19 Covering a wide variety of plays from 1550-1600 including Shakespeare's second tetralogy, this book explores moral, historical and comic plays as contributions to Elizabethan debates on Anglo foreign relations in England. The economic, social, religious and political issues that arose from inter-British contact and Continental immigration into England are reinvented and rehearsed on the public stage. Kermode uncovers two broad alien stages in the drama: distinctive but overlapping processes by which the alien was used to posit ideas and ideals of Englishness. Many studies of English national identity pit Englishness against the alien other so that the native self and the alien settle into antithetical positions. In contrast, *Aliens and Englishness* reads a body of plays that represent Englishness as a state of ideological invention: superiorly paradoxically stable in its constant changeability and brought into being by incorporating and eventually accepting and even celebrating rather than rejecting the alien. *The Alien Jew in the British Imagination, 1881-1905* Hannah Ewence, 2019-09-27 This book explores how fin de siècle Britain and Britons displaced spatially charged apprehensions about imperial decline, urban decay and unpoliced borders onto Jews from Eastern Europe migrating westwards. The myriad of representations of the alien Jew that emerged were the product of but also a catalyst for a decisive moment in Britain's legal history: the fight for the 1905 Aliens Act. Drawing upon a richly diverse collection of social and political commentary including fiction, political

testimony ethnography travel writing journalism and cartography this volume traces the shifting rhetoric around alien Jews as they journeyed from the Russian Pale of Settlement to London's East End By employing a unique and innovative reading of both the aliens debate and racialized discourse concerned with the Jew Hannah Ewence demonstrates that ideas about space and place critically informed how migrants were viewed an argument which remains valid in today's world [A Dictionary of the Anonymous and Pseudonymous Literature of Great Britain](#) Samuel Halkett, John Laing, 1888 **Alien Albion** Scott Oldenburg, 2014-01-01 Using both canonical and underappreciated texts Alien Albion argues that early modern England was far less unified and xenophobic than literary critics have previously suggested Juxtaposing literary texts from the period with legal religious and economic documents Scott Oldenburg uncovers how immigrants to England forged ties with their English hosts and how those relationships were reflected in literature that imagined inclusive multicultural communities Through discussions of civic pageantry the plays of dramatists including William Shakespeare Thomas Dekker and Thomas Middleton the poetry of Anne Dowriche and the prose of Thomas Deloney Alien Albion challenges assumptions about the origins of English national identity and the importance of religious class and local identities in the early modern era **History in Mighty Sounds** Barbara Eichner, 2012 An indispensable study of nineteenth century German music history and nationalism Music played a central role in the self conception of middle class Germans between the March Revolution of 1848 and the First World War Although German music was widely held to be universal and thus apolitical it participated like the other arts in the historicist project of shaping the nation's future by calling on the national heritage Compositions based on often heavily mythologised historical events and heroes such as the Battle of the Teutoburg Forest or the medieval Emperor Barbarossa invited individual as well as collective identification and brought alive a past that compared favourably with contemporary conditions History in Mighty Sounds maps out a varied picture of these invented traditions and the manifold ideas of Germanness to which they gave rise exemplified through works by familiar composers like Max Bruch or Carl Reinecke as well as their nowadays little known contemporaries The whole gamut of musical genres ranging from pre and post Wagnerian opera to popular choruses to symphonic poems contributes to a novel view of the many ways in which national identities were constructed shaped and celebrated in and through music How did artists adapt historical or literary sources to their purpose how did they negotiate the precarious balance of aesthetic autonomy and political relevance and how did notions of gender landscape and religion influence artistic choices All musical works are placed within their broader historical and biographical contexts with frequent nods to other arts and popular culture History in Mighty Sounds will be indispensable reading for anyone interested in nineteenth century German music history and nationalism Barbara Eichner is Senior Lecturer in Musicology at Oxford Brookes University
