philosophers observed the analogies between deontic and alethic modalities and discussed the deontic interpretations of various laws of modal logic In contemporary deontic logic the modal approach was revived by G H von Wright s classic paper Deontic Logic 1951 Certain analogies between deontic and alethic modalities are obvious and uncontroversial but the standard approach has often been criticized on the ground that it exaggerates the analogies and tends to ignore those features of normative concepts which distinguish them from other modalities
