

STUDY GUIDE

PHARMACOLOGY

Pharmacology basics

Pharmacology is the scientific study of the origin, nature, chemistry, effects, and uses of drugs. This knowledge is essential to providing safe and accurate medication administration to your patients.

Basic concepts of Pharmacology:

- Pharmacokinetics – The **absorption, distribution, metabolism, and excretion** of drugs by the body.
- Pharmacodynamics – The **biochemical and physical effects** of drugs and the mechanisms of drugs by the body.
- Pharmacotherapeutics – **The use of drugs to prevent and treat diseases**

Naming and classifying drugs: Drugs have a specific kind of nomenclature – that is a drug can go by three different names.

- Chemical name- A **scientific name** that precisely describes the **drug's atomic and molecular structure**.
- Generic/Nonproprietary name - is **an abbreviation** of the chemical name.
- Trade name/proprietary name (Also known as brand name) – is **selected by the drug company** selling the product.
 - **Trade names are protected by copyright.**
 - ® symbol after a trade name indicates that **the name is registered by and restricted to the drug manufacturer.**

Class Act: Pharmacologic class (family) - Drugs that share the similar characteristics that are grouped together.

Beta-adrenergic blockers are an example of **pharmacologic class** – refers to how an agent works at the molecular, tissues, and body system levels.

Note: Pharmacologic class is a group of active moieties that share scientifically documented properties and is defined on the basis of any combination of three attributes of the active moiety

- **Mechanism of Action**
- **Physiologic effect**
- **Chemical structure**

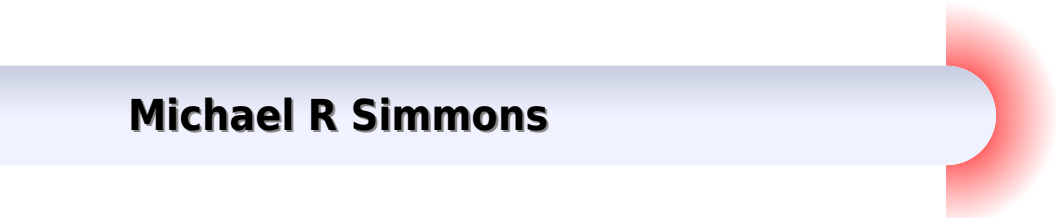

A second type of drug grouping is **Therapeutic class** – categorizes drugs by the therapeutic use. *Anti-hypertensive* are an example of a therapeutic class.

Where drugs come from

Traditionally, drugs were derived from natural sources such as: Plants, Animals, Minerals. Today however laboratory knowledge, along with chemical science to develop synthetic drug sources. One advantage of chemically developed drugs is that they're free from the impurities in natural substances. Also, researchers and drug developers can manipulate the molecular structure of substances such as antibiotics so that a slight change in the chemical structure makes the drug effective against different organisms. The first, second, third, and fourth generation cephalosporins are an example.

Answers For Pharmacology Study Guide:

Study Guide for Pharmacology for Canadian Health Care Practice - E-Book Kara Sealock, Cydnee

Seneviratne, 2024-06-13 Ensure your mastery of need to know Canadian pharmacology nursing principles with the Study Guide for Lilley's Pharmacology for Canadian Health Care Practice 5th Edition. Designed to accompany the Lilley's textbook, this dynamic study guide helps you better understand, retain, and apply the information and concepts from each chapter of the text. Worksheets for each chapter include multiple choice, review questions, critical thinking, and application questions, case studies, and a wealth of other learning activities to help you fully prepare for credentialing exams. NEW! Thoroughly updated content reflects the organization and updated information housed in the fifth edition of Lilley's Pharmacology for Canadian Health Care Practice. Chapter by chapter, worksheets are divided into three main sections: chapter review and examination preparation, including multiple choice and matching questions, critical thinking, and application questions; with some chapters including a critical thinking crossword puzzle and case studies. Chapter review and examination preparation in each chapter worksheet includes a number of application-based practice questions for the Next Generation NCLEX-RN (NGN), including at least one alternate item question per chapter. UNIQUE! Cartoon illustrated study tips help you manage your study time more effectively and expand upon the study skills tips included on the accompanying Evolve website. Variety of questions includes fill-in-the-blank, multiple choice, labelling, and ordering, matching, and short answer. Focus on prioritization features at least one prioritization exercise in each chapter in which you must evaluate a clinical scenario and answer the question: What is the nurse's best action? These exercises provide practice with identifying the most important need-to-know nursing actions. Overview of Dosage Calculations section features explanations of key drug calculation concepts, sample drug labels, practice problems, and a practice quiz. Answers for all exercises are provided at the back of the book to facilitate self-study. **Study**

Guide for Introduction to Clinical Pharmacology - E-Book Constance G. Visovsky, 2023-12-18 Reinforce your understanding of nursing pharmacology with this practical study guide. Corresponding chapter by chapter to Introduction to Clinical Pharmacology 11th Edition, this workbook provides the practice and review needed to help you master pharmacology knowledge and prepare for the NCLEX-PN Examination. A variety of questions includes a math review, dosage calculation exercises, and case studies that emphasize clinical decision making and prioritization. It's the ideal study tool and review companion for your textbook. Alternate item format review questions prepare you for the Next Generation NCLEX-RN (NGN) exam. Variety of exercises reinforces your understanding with matching, multiple choice, fill-in-the-blank, true or false, and select-all-that-apply questions, as well as crossword puzzles. Practice quizzes provide preparation for course and licensure exams. Reader-friendly writing style and organization makes the content easier to understand. NEW! Review questions for the textbook's new Drugs for Cancer Treatment chapter are added to this edition, as well as questions for the expanded Drugs for Reproductive Health, Drugs for Thyroid and Adrenal Problems, and Drugs for Osteoporosis chapters. NEW! Updated exercises

cover newly approved pharmaceutical treatments and drugs Study Guide for Pharmacology and the Nursing Process E-Book Linda Lane Lilley, Julie S.
