Study Guide t/a Our Global Environment Anne Nadakavukaren, Jack Caravanos, 2020-01-31 The perfect companion volume to *Our Global Environment A Health Perspective* Eighth Edition this Study Guide is designed with the student in mind. The exercises are presented in a variety of formats including true false matching short answer discussion and essay providing students with the tools they need to review the material and reinforce their understanding of the topics in each chapter. The convenient format and perforated pages give instructors multiple options exercises can be assigned and collected as homework incorporated into classroom discussions and activities or used by students to prepare for exams. In addition the Study Guide contains specific activities that send students into their communities to seek information on local environmental concerns giving them a real sense of how such issues directly impact their own lives. Moreover these activities encourage and prepare students to become informed participants in the public decision making processes that will profoundly influence environmental quality and health in the years to come.

Study Guide to Accompany Our Global Environment Anne Nadakavukaren, 2011-03-22
Our Global Environment Anne Nadakavukaren, Jack Caravanos, 2020-01-23 *Our Global Environment* regarded for decades as the quintessential introduction to environmental health for its authoritative coverage and cogent prose provides a richly detailed survey of current environmental issues. In compelling language Anne Nadakavukaren and new coauthor Jack Caravanos describe the crucial interdependence between humans and their environment exploring the varied ways in which human activities have impacted degraded or altered the environment and the consequences to both natural ecosystems and human health and well being. The eighth edition features a new chapter on climate change and the public health impacts of global warming incorporating the latest assessments of the Intergovernmental Panel on Climate Change with regard to the physical science basis mitigation efforts and adaptation strategies. Extensive revisions and updates throughout the volume reflect current topics of concern including the magnitude of global hunger and malnutrition outbreaks of the Zika virus vaping and the incidence of serious lung injury MTBE contamination of groundwater recycling of lead acid batteries in developing countries mercury exposure among artisanal gold miners and lead contaminated drinking water in Flint Michigan and other communities. Readers will appreciate the addition of 16 pages of color images as well as the authors emphasis on opportunities for public participation in the decision making processes that profoundly influence health and environmental quality.
