Teaching Britain Christopher Bischof, 2019 Teachers in nineteenth century Britain claimed intimate knowledge of everyday life among the poor and working class at home and non white subjects abroad This knowledge enabled them to help to enact new models of professionalism attitudes towards poverty and social mobility ways of thinking about race and empire and roles for the state

Worth Striking For Isabel Nunez, Gregory Michie, Pamela Konkol, 2015-02-20 Written by activist educators Worth Striking For speaks to teachers and teachers to be about the drastic changes in the landscape of public education in recent decades and focuses on what they need to know about the debates and complex issues of reform affecting their lives and professions The book identifies the most significant shifts in education policy including how policy has helped or hindered the broader educational purposes of schools Using the 2012 Chicago teachers strike as a framing device the authors demonstrate how each of the policy areas addressed is critically important to teachers lives and work Each chapter describes one of the Chicago teachers demands and then explores a related policy arena through the lens of an associated philosophical purpose of education The text features individually authored vignettes that juxtapose the authors personal experiences with the issues bringing policy and policy activism to life This hopeful book will inspire and empower teachers to take action in their schools communities districts and states

Shots in the Dark Jadwiga Biskupska, Sara B. Castro, 2025-09-02 Brings together geographies and methodologies often kept apart by the difficulties of researching such a broad ranging topic as the war Shots in the Dark offers cutting edge

scholarship across different subfields in World War II history revealing new insights into how this crucial conflict was planned experienced and fought Twelve chapters demonstrate the broad scope of wartime innovation and how the war functioned as a global turning point driving change at all levels of human society from government institutions to individual identities Contributors collaborated in a vibrant workshops series sponsored by the North American branch of the Second World War Research Group SWWRGNA an organization that emerged to nurture scholarship on the global war and unite scholars fragmented in narrower regional and methodological stovepipes to consider the war as a whole The SWWRGNA and this volume showcase the work of diverse historians across subfields operational cultural gender social intelligence and diplomatic history This approach exposes the Second World War as a catalyst for overlapping global changes that revolutionized the world after 1945 These scholars reveal continuities and parallels in wartime experiences that would remain invisible in narrowly focused projects The volume establishes three frameworks for understanding and interpreting changes the war provoked 1 institutional adaptation 2 totalization or the militarization of civilians and 3 cultural transformation Each of the three frameworks is explored from four vantage points Geographies are deliberately contrasted within each framework to examine the broad scope of that level of war driven change
