Anthropologie Du Crime

Scott C. Dulebohn

Anthropologie Du Crime:

Anthropologie du crime Jean-Michel Bessette, 2013-09-01 Rien n'est plus prodigieux la fois merveilleux et monstrueux que l'homme. Il marche tant vers le bien quand il se lie aux mythologies collectives et aux lois de sa cité tant vers le mal s'il est hanté par la mesure. Aussi l'autolimitation de l'individu travers l'imposition collective de la loi est une question essentielle. L'anthropologie criminelle, science de synthèse, vise mieux à comprendre l'économie générale qui régit les comportements humains dans une perspective transdisciplinaire.

Abnormal Man Arthur MacDonald, 1893

Nature and Nurture in French Social Sciences, 1859-1914 and Beyond Martin S. Staum, 2011 The relative importance of heredity or environmental influence remains an enduring hotly debated issue while the legacy of scientific racism and sexism still tarnishes the twenty-first century. This unique study analyzes how theories of inherited difference including race and gender affected French social scientists in the late nineteenth and early twentieth centuries. The prevailing assumption has been that French ethnographers highlighted the cultural and social environment while anthropologists emphasized the scientific study of head and body shapes. Martin Staum shows that the temptation to gravitate towards one pole of the nature/nurture continuum often resulted in reluctant concessions to the other side. Psychologists Théodule Ribot and Alfred Binet, for example, were forced to recognize the importance of social factors. Non-Durkheimian sociologists were divided on the issue of race and gender as progressive and tolerant attitudes on race did not necessarily correlate with flexible attitudes on gender. Recognizing this allows Staum to raise questions about the theory of the equivalence of all marginalized groups. Anthropological institutions reorganized before the First World War sometimes showed decreasing confidence in racial theory but failed to abandon it completely. Staum's chilling epilogue discusses how the persistent legacy of such theories was used by extremist anthropologists outside the mainstream to deploy racial ideology as a basis of persecution in the Vichy era.

The Crime of Destruction and the Law of Genocide Caroline Fournet, 2016-03-16 This highly original work provides a thought-provoking and valuable resource for researchers and academics with an interest in genocide, criminology, international organizations, and law and society. In her book, Caroline Fournet examines the law relating to genocide and explores the apparent failure of society to provide an adequate response to incidences of mass atrocity. The work casts a legal perspective on this social phenomenon to show that genocide fails to be appropriately remembered due to inherent defects in the law of genocide itself. The book thus connects the social response to the legal theory and practice and trials in particular. Fournet's study illustrates the shortcomings of the Genocide Convention as a means of preventing and punishing genocide as well as its consequent failure to ensure the memory of this heinous crime.

Metaphysics and the Sciences in Nineteenth-Century France, 2025-07-22 This volume is the first systematic study of the style of reasoning specific to the field of philosophy in nineteenth-century France. The chapters analyze the often dispersed responses to the fundamental

question of the division of the sciences based on the reciprocal relationships of inclusion or exclusion of adversity or sorority between metaphysics and the positive sciences In line with the arrhythmic progress of the different forms of knowledge these responses renew the Condillacian criticisms of the Cartesian order of the relationships between metaphysics and physics Between a pronounced divorce and a successful marriage this volume traces the philosophical history of the various attempts at divorce or union which as the century progressed resulted in original hybridizations that aspired to define a new and ever problematic French philosophy **L' Anthropologie criminelle et les nouvelles théories du Crime** Émile Laurent, 1891
