Karolyn Kinane,Michael A. Ryan,2014-01-10 The idea of the complete annihilation of all life is a powerful and culturally universal concept As human societies around the globe have produced creation myths so too have they created narratives concerning the apocalyptic destruction of their worlds This book explores the idea of the apocalypse and its reception within culture and society bringing together 17 essays that explore both the influence and innovation of apocalyptic ideas from classical Greek and Roman writings to the foreign policies of today s United States Permanent Revolution James Simpson,2019-02-18 How did the Reformation which initially promoted decidedly illiberal positions end up laying the groundwork for Western liberalism The English Reformation began as an evangelical movement driven by an unyielding belief in predestination intolerance stringent literalism political quietism and destructive iconoclasm Yet by 1688 this illiberal early modern upheaval would deliver the foundations of liberalism free will liberty of conscience religious toleration readerly freedom constitutionalism and aesthetic liberty How did a movement with such illiberal beginnings lay the groundwork for the Enlightenment James Simpson provocatively rewrites the history of liberalism and uncovers its unexpected debt to evangelical religion Sixteenth century Protestantism ushered in a culture of permanent revolution ceaselessly repudiating its own prior forms Its rejection of tradition was divisive violent and unsustainable The proto liberalism of the later seventeenth century emerged as a cultural package designed to stabilize the social chaos brought about by this evangelical revolution A brilliant assault on many of our deepest assumptions Permanent Revolution argues that far from being driven by a new strain of secular philosophy the British Enlightenment is a story of transformation and reversal of the Protestant tradition from within The gains of liberalism were the unintended results of the violent early Reformation Today those gains are increasingly under threat in part because liberals do not understand their own history They fail to grasp that liberalism is less the secular opponent of religious fundamentalism than its dissident younger sibling uncertain how to confront its older evangelical competitor **Images of Islam, 1453-1600** Charlotte Colding Smith,2015-10-06 Using evidence from contemporary printed images Smith examines the attitudes of Christian Europe to the Ottoman Empire and to Islam She also considers the relationship between text and image placing it in the cultural context of the Reformation and beyond
