Antifascism In American Art:

Antifascism in American Art Cécile Whiting, 1989-01-01 Whiting examines the various manifestations of antifacist art showing how each negotiated the competing demands of artistic conventions aesthetic and political theories and historical developments *America After the Fall* Sarah L. Burns, Teresa A. Carbone, Annelise K. Madsen, Sarah Kelly

Oehler, 2016-01-01 A unique look at America's quest to carve out an artistic identity during the Depression era Through 50 masterpieces of painting this fascinating catalogue chronicles the turbulent economic political and aesthetic climate of the 1930s This decade was a supremely creative period in the United States as the nation's artists novelists and critics struggled through the Great Depression seeking to define modern American art In the process many painters challenged and reworked the meanings and forms of modernism reaching no simple consensus This period was also marked by an astounding diversity of work as artists sought styles ranging from abstraction to Regionalism to Surrealism that allowed them to engage with issues such as populism labor social protest and to employ an urban and rural iconography including machines factories and farms Seminal works by Edward Hopper Grant Wood Thomas Hart Benton Georgia O'Keeffe Aaron Douglas Charles Sheeler Stuart Davis and others show such attempts to capture the American character These groundbreaking paintings highlighting the relationship between art and national experience demonstrate how creativity experimentation and revolutionary vision flourished during a time of great uncertainty **Marsden Hartley** Donna Cassidy, 2005 A provocative new reading of the great American avant garde artist Marsden Hartley's late work

Radical Art Helen Langa, 2004-03-25 Publisher Description *Journal of the Archives of American Art* Archives of American Art, 1989 **Becoming American? The Art and Identity Crisis of Yasuo Kuniyoshi** ShiPu Wang, 2011-05-31 A few short days has changed my status in this country although I myself have not changed at all On December 8 1941 artist Yasuo Kuniyoshi 1889-1953 awoke to find himself branded an enemy alien by the U.S. government in the aftermath of Japan's attack on Pearl Harbor The historical crisis forced Kuniyoshi an immigrant Japanese with a distinguished career in American art to rethink his pictorial strategies and to confront questions of loyalty assimilation national and racial identity that he had carefully avoided in his prewar art As an immigrant who had proclaimed himself to be as American as the next fellow the realization of his now fractured and precarious status catalyzed the development of an emphatic and conscious identity construct that would underlie Kuniyoshi's art and public image for the remainder of his life Drawing on previously unexamined primary sources *Becoming American* is the first scholarly book in over two decades to offer an in depth and critical analysis of Yasuo Kuniyoshi's pivotal works including his anti-Japan posters and radio broadcasts for U.S. propaganda and his coded and increasingly enigmatic paintings within their historical contexts Through the prism of an identity crisis the book examines Kuniyoshi's imagery and writings as vital means for him to engage albeit often reluctantly and ambivalently in discussions about American democracy and ideals at a time when racial and national origins were grounds for mass incarceration and discrimination It is also among the first scholarly

studies to investigate the activities of Americans of Japanese descent outside the internment camps and the intense pressures with which they had to deal in the aftermath of Pearl Harbor As an art historical book *Becoming American* foregrounds broader historical debates of what constituted American art a central preoccupation of Kuniyoshi's artistic milieu It illuminates the complicating factors of race diasporas and ideology in the construction of an American cultural identity Timely and provocative the book historicizes and elucidates the ways in which minority artists have been and continue to be both championed and marginalized for their cultural and ethnic difference within the twentieth century American art canon

The "new Woman" Revised Ellen Wiley Todd, 1993-01-01 In the years between the world wars Manhattan's Fourteenth Street Union Square district became a center for commercial cultural and political activities and hence a sensitive barometer of the dramatic social changes of the period It was here that four urban realist painters Kenneth Hayes Miller Reginald Marsh Raphael Soyer and Isabel Bishop placed their images of modern new women Bargain stores cheap movie theaters pinball arcades and radical political organizations were the backdrop for the women shoppers office and store workers and consumers of mass culture portrayed by these artists Ellen Wiley Todd deftly interprets the painters complex images as they were refracted through the gender ideology of the period This is a work of skillful interdisciplinary scholarship combining recent insights from feminist art history gender studies and social and cultural theory Drawing on a range of visual and verbal representations as well as biographical and critical texts Todd balances the historical context surrounding the painters with nuanced analyses of how each artist's image of womanhood contributed to the continual redefining of the new woman's relationships to men family work feminism and sexuality

American Artists Against War, 1935-2010 David McCarthy, 2015-07-07 Artists against war and fascism Doom End your silence A network of artist activists Not in our name

Artists on the Left Andrew Hemingway, 2002-01-01 Examination of the relation between visual artists and the American communist movement in the first half of the twentieth century from the rise in prestige of the party during the Great Depression to its decline in the 1950s Account of how left wing artists responded to the party's various policy shifts the communist party exerted a powerful force in American culture

Music, Art and Diplomacy: East-West Cultural Interactions and the Cold War Simo Mikkonen, Pekka Suutari, 2017-05-15 Music Art and Diplomacy shows how a vibrant field of cultural exchange between East and West was taking place during the Cold War which contrasts with the orthodox understanding of two divided and antithetical blocs The series of case studies on cultural exchanges focusing on the decades following the Second World War cover episodes involving art classical music theatre dance and film Despite the fluctuating fortunes of diplomatic relations between East and West there was a continuous circulation of cultural producers and products Contributors explore the interaction of arts and politics the role of the arts in diplomacy and the part the arts played in the development of the Cold War Art has always shunned political borders wavering between the guidance of individual and governmental patrons and borderless expression While this volume provides insight into how political players tried to

harness the arts to serve their own political purposes at the same time it is clear that the arts and artists exploited the Cold War framework to reach their own individual and professional objectives Utilizing archives available only since the collapse of the Soviet Union the volume provides a valuable socio cultural approach to understanding the Cold War and cultural diplomacy
