Alice's Adventures in Wonderland Lewis Carroll,1898 *Alice's Adventures in Wonderland and Through the Looking Glass* Carroll L.,2018 Lewis Carroll was the pen name of Charles L Dodgson English writer mathematician and photographer This volume includes both of his most famous writings Alice's Adventures in Wonderland and its sequel Through the Looking Glass They tell a story of adventures of a girl named Alice in fantasy worlds full of wonderful and peculiar creatures Both of these works were considered children's novels that were satirical in nature The tales play with logic giving these stories lasting popularity with adults as well as with children *A Majority of One* Francis Augustine Harris,1892 *Alice's*

Adventures in Wonderland And, Through the Looking Glass Lewis Carroll,1894 **The Alice Books and the Contested Ground of the Natural World** Laura White,2017-06-26 Though popular opinion would have us see Alice's Adventures in Wonderland and Through the Looking Glass and What Alice Found There as whimsical nonsensical and thoroughly enjoyable stories told mostly for children contemporary research has shown us there is a vastly greater depth to the stories than would be seen at first glance Building on the now popular idea amongst Alice enthusiasts that the Alice books at heart were intended for adults as well as children Laura White takes current research in a new fascinating direction During the Victorian era of the book's original publication ideas about nature and our relation to nature were changing drastically The Alice Books and the Contested Ground of the Natural World argues that Lewis Carroll used the book's charm wit and often puzzling conclusions to counter the emerging tendencies of the time which favored Darwinism and theories of evolution and challenged the then conventional thinking of the relationship between mankind and nature Though a scientist and ardent student of nature himself Carroll used his famously playful language fantastic worlds and brilliant often impossible characters to support more the traditional Christian ideology of the time in which mankind holds absolute sovereignty over animals and nature *Favorite Flies and Their Histories* Mary Orvis Marbury,1892
