All the Light We Cannot See Anthony Doerr, 2014-05-06 An imaginative and intricate novel inspired by the horrors of World War II and written in short elegant chapters that explore human nature and the contradictory power of technology

Summary of All the Light We Cannot See by Anthony Doerr Peter Cuomo, 2024-02-07 A complete chapter by chapter summary of Anthony Doerr's book *All the Light We Cannot See*. About the original book *All the Light We Cannot See* is a 2014 historical novel by Anthony Doerr. It tells the story of a blind French girl Marie Laure LeBlanc and a German boy Werner Pfennig whose paths collide in occupied France as both try to survive the devastation of World War II. Marie Laure is the daughter of a locksmith who works at the Museum of Natural History in Paris. She goes blind at the age of six but her father helps her to adapt to her new reality by building her a scale model of their neighborhood and teaching her to read Braille. When the Germans invade Paris, Marie Laure and her father flee to Saint Malo, a walled city on the coast of Brittany. Werner is a gifted radio engineer who is conscripted into the German army. He is sent to Saint Malo to help track down Allied radio transmissions. Werner is initially enthusiastic about his work but he soon becomes disillusioned with the war and the Nazis. The two characters' paths cross when Werner intercepts a radio transmission from Marie Laure's father. Werner can track down Marie Laure and her father but he decides to help them instead of turning them in. The novel ends with the liberation of Saint Malo by the Allies. Marie Laure and Werner are both alive but they have been deeply scarred by the war. *All the Light We Cannot See* is a powerful and moving story about the resilience of the human spirit in the face of adversity. It is a reminder that even in the darkest of times there is always hope. It is a story that explores the choice between a desire to be morally good whilst clinging to survival. The novel is told through the alternating narratives of two children: Marie Laure, a 14-year-old blind girl forced to flee Paris when the Nazis invaded; and Werner, a gadget-loving radio builder enlisted by Hitler Youth to track the movements of the French resistance. The two narratives entwine until the stories intersect in Saint Malo, a French walled citadel by the sea. Marie Laure becomes blind at the age of 6. Her father, a master of the thousand locks at the Museum of Natural History, builds her a model of the neighbourhood to help her find her way around. When the war catches up with the pair, they flee to Marie Laure's great Uncle's house with a beautiful but dangerous gem. Werner begins the story in a brutal camp for Hitler Youth and soon becomes aware of the cost of the intelligence and soon he is sent on a mission to Saint Malo where his story catches up with the young French girl. Both children strive to be good people in evil times in deprived and dangerous conditions; they show how there is still hope. Detailed overview of the book. Most valuable lessons and information.
