Sporting Gentlemen E. Digby Baltzell, 2017-07-12 Tennis is a high stakes game played by prodigies identified early and coached by professionals in hopes of high rankings and endorsements This commercial world is far removed from the origins of the sport Before 1968 when Wimbledon invited professional players to compete for the first time tennis was part of a sportsmanship tradition that emphasized character over money It produced well rounded gentlemen who expressed a code of honor not commerce In this authoritative and affectionate history of men's tennis distinguished sociologist E Digby Baltzell recovers the glory of the age From its aristocratic origins in the late nineteenth century to the Tilden years and through a succession of newcomers the amateur era and its virtues survived a century of democratization and conflict Sporting Gentlemen examines the greatest players and matches in the history of tennis Baltzell explores the tennis code of honor and its roots in the cricket code of the late nineteenth century Anglo American upper class This code of honor remained in spite of the later democratization of tennis Thus the court manners of the Renshaw twins and Doherty brothers at the Old Wimbledon were upheld to the letter by Don Budge and Jack Kramer as well as Rod Laver John Newcombe and Arthur Ashe Baltzell's final chapter on the Open Era is a blistering attack on the decline of honor and the obliteration of class distinctions leaving only those based on money For all

who love the game of tennis Sporting Gentlemen is both fascinating history and a badly needed analysis of what has made the sport great

Family Experiments Shelley Richardson, 2016-11-30 Family Experiments explores the forms and undertakings of family that prevailed among British professionals who migrated to Australia and New Zealand in the late nineteenth century Their attempts to establish and define family in Australasian suburban environments reveal how the Victorian theory of separate spheres could take a variety of forms in the new world setting The attitudes and assumptions that shaped these family experiments may be placed on a continuum that extends from John Ruskin's concept of evangelical motherhood to John Stuart Mill's rational secularism Central to their thinking was a belief in the power of education to produce civilised and humane individuals who as useful citizens would individually and in concert nurture a better society Such ideas pushed them to the forefront of colonial liberalism The pursuit of higher education for their daughters merged with and in some respects influenced first wave colonial feminism They became the first generation of colonial middle class parents to grapple not only with the problem of shaping careers for their sons but also and more frustratingly what graduate daughters might do next
