Anthropologies De Linterculturaliteacute:

Anthropologies, Interculturalité Et Enseignement-Apprentissage Des Langues- Anthropology, Interculturality and Language Learning-Teaching Aline Gohard-Radenkovic, Department of Teacher Education Fred Dervin, Béatrice Fracchiolla, Fred Dervin, 2012-01-18 Les liens entre anthropologie et interculturalité semblent naturels première vue Mais ces liens en fait ne vont pas de soi C est pourquoi cet ouvrage se donne pour objectif d examiner le recours de la didactique des langues et de l interculturel divers courants et conceptions de l anthropologie Pour tous les auteurs rassemblés ici il y a d abord nécessité d identifier pour mieux les comprendre les complexités de l interculturalité mais aussi de se positionner dans le champ d une anthropologie plurielle voire clatée Certains d entre eux proposent l anthropologie comme une approche didactique en soi au sein de la classe de langue tandis que d autres s appuient sur ses concepts et outils pour mener leurs réflexions sur des situations d enseignement apprentissage Ce livre s adresse aux chercheurs enseignants et anthropologues qui souhaitent interroger et s interroger sur les relations entre anthropologie et didactique The seemingly natural link between anthropology and interculturality is not self explanatory For this reason this book aims to review the use of various forms and understandings of anthropology in language and intercultural education First of all it is necessary on the one hand to clarify the notion of interculturality and on the other hand to position oneself in the complex and multifaceted field of anthropology While some authors in the volume describe how they initiate anthropological practices in the language classroom others explain how they apply theories concepts and methods from anthropology to research learning and teaching The volume will be of great value to novice researchers teachers and anthropologists interested in the relationship between anthropology and language and intercultural education

Anthropologie Mondher Kilani, 2009 Pendant longtemps l anthropologie a été associée à l étude des sociétés exotiques Dès sa constitution elle a cependant poursuivi un autre objectif celui de transcender les particularismes et de penser l humanité dans son ensemble une époque marquée par la globalisation son privilège scientifique réside précisément dans cette capacité de varier les échelles d observation et d articuler l universel et le particulier Plus qu une simple introduction cet ouvrage a pour ambition de présenter les débats et les orientations qui traversent actuellement la discipline d interroger sa démarche et de l inscrire dans l histoire de la pensée de l altérité En abordant des problématiques en prise avec les transformations que le monde a connues depuis deux siècles mondialisation multiculturalisme postcolonialisme conflits de mémoire génocides il souligne enfin que les questions anthropologiques qui se posent à l anthropologie sont aussi des questions politiques
