Antiformalist Unrevolutionary Illiberal Milton:

Antiformalist, Unrevolutionary, Illiberal Milton William Walker, 2016-04-15 On the basis of a close reading of Milton's major published political prose works from 1644 through to the Restoration William Walker presents the anti formalist unrevolutionary illiberal Milton Walker shows that Milton placed his faith not so much in particular forms of government as in statesmen he deemed to be virtuous He reveals Milton's profound aversion to socio political revolution and his deep commitments to what he took to be orthodox religion He emphasises that Milton consistently presents himself as a champion not of heterodox religion but of reformation He observes how Milton's belief that all men are not equal grounds his support for regimes that had little popular support and that did not provide the same civil liberties to all And he observes how Milton's powerful commitment to a single religion explains his endorsement of various English regimes that persecuted on grounds of religion This reading of Milton's political prose thus challenges the current consensus that Milton is an early modern exponent of republicanism revolution radicalism and liberalism It also provides a fresh account of how the great poet and prose polemicist is related to modern republics that think they have separated church and state Milton and the Burden of Freedom

John Leonard, 2016-06-27 Leading critic John Leonard explores the writings of John Milton from his early poetry to his major prose Making Milton Emma Depledge, John S. Garrison, Marissa Nicosia, 2021 A collection of essays exploring John Milton's rise to popularity and his status as a canonical author The volume considers Milton's authorial persona in the context of his relationships with his contemporary writers stationers and readers **The Masculinities of John Milton** Elizabeth

Hodgson, 2022-09-08 This first published book on Milton's masculinities exposes how Milton constructs the power cultures of

manhood in his most famous works **Paradise from behind the Iron Curtain** Miklós Péti, 2022-08-08 Paradise from behind the Iron Curtain provides a detailed survey of the key responses to Milton's work in Hungarian state socialism. The four decades between 1948 and 1989 saw a radical revision of previous critical and artistic positions and resulted in the emergence of some characteristically Eastern European responses to Milton's works. Critical and artistic appraisals of Milton's works in the communist era proved more controversial than receptions of other major Western authors on the one hand. Milton's participation in the Civil War earned him the title of a revolutionary hero on the other hand; religious aspects of his works were often disregarded and sometimes proactively suppressed. Ranging through all the genres of Milton's oeuvre as well as the critical tradition, the book highlights these diverging responses and places them in the wider context of socialist cultural policy. In addition, the author presents the full Hungarian script of the 1970 theatrical performance of Milton's Paradise Lost, the first of its kind since the work's publication, including a parallel English translation which enables a deeper reflection on Milton's original theodicy and its possible interpretations in communist Hungary **Rethinking Liberty before Liberalism** Hannah Dawson, Annelien de Dijn, 2022-02-03 Reflects on histories of freedom and republicanism through a major new reappraisal of Quentin Skinner's Liberty before Liberalism **Sovereignty** Feisal Gharib Mohamed, 2020 This volume explores the degree to which seventeenth-century ideas and expressions of sovereignty underpin political modernity

The Politics of Grace in Early Modern Literature Deni Kasa, 2024-03-12 This book tells the story of how early modern poets used the theological concept of grace to reimagine their political communities. The Protestant belief that salvation was due to sola gratia or grace alone was originally meant to inspire religious reform. But as Deni Kasa shows, poets of the period used grace to interrogate the most important political problems of their time: from empire and gender to civil war and poetic authority. Kasa examines how four writers—John Milton, Edmund Spenser, Aemilia Lanyer, and Abraham Cowley—used the promise of grace to develop idealized imagined communities and not always egalitarian ones. Kasa analyzes the uses of grace to make new space for individual and collective agency in the period but also to validate domination and inequality with poets and the educated elite inserted as mediators between the gift of grace and the rest of the people. Offering a literary history of politics in a pre-secular age, Kasa shows that early modern poets mapped salvation onto the most important conflicts of their time in ways missed by literary critics and historians of political thought. Grace, Kasa demonstrates, was an important means of expression and a way to imagine impossible political ideals.
