variety of interdisciplinary approaches Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national sexual and urban identities and incorporates rather than rejects technological innovations and elements from the mass media Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy modernization immigration globalization economic shifts toward neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even changed the very form of Spanish American poetry since the 1970s **Major 20th-century Writers** ,1991

B. Morris,1969-09 This critical study of the group of remarkably talented poets who flourished in Spain between the First World War and the Spanish Civil War includes copious quotations accompanied by English prose translations Mr Morris treats his poets as a group showing how they shared certain themes and attitudes He begins with a general study of the generation as a whole and then examines the use of tradition the zest and levity of the Jazz Age the exaltation of life as a shared attitude then its converse the escape from life and finally the expression in complex imagery of personal tensions and disturbances These are often difficult poets but become less so when they are sympathetically examined in this way and in relation to earlier literary traditions Mr Morris enables the reader to take bearings and establish relationships which are enhanced by reproductions of photographs of the poets
