Chapters 31, 32, and 33 should be considered as a single unit, and you should try to put all of them together in a single conceptual framework. For each of the phyla that we highlight in the questions that follow, try to know the characters that are unique to that group, and focus on the evolution of various systems. So they have time to teach the more difficult molecular concepts, many teachers choose to have students learn this unit on their own. Our goal here is to focus your time and energy on what we have seen to be commonly asked information. At the end of this Reading Guide chapter, you will find a chart that may help you to organize this knowledge.
