Encyclopedia of the Mind Harold Pashler, 2013-01-14 It's hard to conceive of a topic of more broad and personal interest than the study of the mind. In addition to its traditional investigation by the disciplines of psychology, psychiatry and neuroscience, the mind has also been a focus of study in the fields of philosophy, economics, anthropology, linguistics, computer science, molecular biology, education and literature. In all these approaches, there is an almost universal fascination with how the mind works and how it affects our lives and our behavior. Studies of the mind and brain have crossed many exciting thresholds in recent years and the study of mind now represents a thoroughly cross disciplinary effort. Researchers from a wide range of disciplines seek answers to such questions as: What is mind? How does it operate? What is consciousness? This encyclopedia brings together scholars from the entire range of mind related academic disciplines from across the arts and humanities, social sciences, life sciences and computer science and engineering to explore the multidimensional nature of the human mind

How To Deal With Huge Loss Trade & Learn Successful Investment Strategy Kelvin Trinh, 2021-09-27 The first thing to do is to face the truth: you are at a serious loss. Be honest with yourself that you have a very bad trade that needs to be fixed. That no one else can decide for you. Stop reading the news and respond according to the following steps:

- Step 1: Review where your investment capital comes from.
- Step 2: Do you have a capital risk management method?
- Step 3: Do you have an objective investment strategy?
- Step 4: Do you have a way to control your psychology and discipline?
- Step 5: Do you record each transaction for later analysis?

Going through each step, you will have the proper treatment to be able to skillfully handle a bad trade and go back from a failed investment strategy to a successful one
