Amber Alert Amber Alert Series 1

Roger L. Sadler

Amber Alert Amber Alert Series 1:

An AMBER Alert national system United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Technology, Terrorism, and Government Information, 2003 Emergency Alert and Warning Systems National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Computer Science and Telecommunications Board, Committee on the Future of Emergency Alert and Warning Systems: Research Directions, 2018-05-19 Following a series of natural disasters including Hurricane Katrina that revealed shortcomings in the nation's ability to effectively alert populations at risk Congress passed the Warning Alert and Response Network (WARN) Act in 2006 Today new technologies such as smart phones and social media platforms offer new ways to communicate with the public and the information ecosystem is much broader including additional official channels such as government social media accounts opt in short message service (SMS) based alerting systems and reverse 911 systems less official channels such as main stream media outlets and weather applications on connected devices and unofficial channels such as first person reports via social media Traditional media have also taken advantage of these new tools including their own mobile applications to extend their reach of beyond broadcast radio television and cable Furthermore private companies have begun to take advantage of the large amounts of data about users they possess to detect events and provide alerts and warnings and other hazard related information to their users More than 60 years of research on the public response to alerts and warnings has yielded many insights about how people respond to information that they are at risk and the circumstances under which they are most likely to take appropriate protective action Some but not all of these results have been used to inform the design and operation of alert and warning systems and new insights continue to emerge Emergency Alert and Warning Systems reviews the results of past research considers new possibilities for realizing more effective alert and warning systems explores how a more effective national alert and warning system might be created and some of the gaps in our present knowledge and sets forth a research agenda to advance the nation's alert and warning capabilities Electronic Media Law Roger L. Sadler, 2005-03-10 Even though the First Amendment of the U S Constitution grants freedom of speech and freedom of the press laws and regulations governing media frequently evolve as the media themselves do As a result it is often a challenge to keep pace with new laws and regulations Electronic Media Law is a comprehensive up to date textbook on the constantly changing and often complex world of electronic media law Author Roger L Sadler examines the laws regulations and court rulings affecting broadcasting cable satellite and cyberspace The book also looks at cases from the print media and general First Amendment law because they often contain important concepts that are relevant to the electronic media Electronic Media Law is written for mass media students not for future lawyers so the text is straightforward and explains legalese The author covers First Amendment law political broadcasting rules broadcast content regulations FCC rules for station operations cable regulation media ownership rules media liability lawsuits intrusive

newsgathering methods media restrictions during wartime libel privacy copyright advertising law freedom of information cameras in the court and privilege Key Features Provides an easy to use format of chapter categories and sections that facilitate research on individual topics Frequently Asked Questions highlight important points from cases Explains complex legal concepts in basic terms that give students the foundation for further studies in electronic media law Electronic Media Law provides an understanding of the First Amendment and the American legal system with an emphasis on the electronic media It is an excellent textbook for undergraduate and graduate students studying broadcast law and media law
