Your Daughters Will Prophecy Lisa Marie Gring-Pemble, Martha Watson, 2025-05-22 How nineteenth-century women used the Bible to claim their voice on the moral questions of their day. Caught between their identity as Christians and social norms that silenced them, American women used scripture to claim moral and then rhetorical agency. They reinterpreted familiar biblical passages, recovered previously ignored stories about women, and contested passages used to circumscribe women's activities. By strategically adopting a rhetorical posture of dissent, these women became prophetic voices in American society. In *Your Daughters Will Prophecy*, Lisa Marie Gring-Pemble and Martha Watson analyze the argumentative resources four women—Jarena Lee, Sarah Moore Grimké, Lucretia Coffin Mott, and Frances Willard—used to counter gendered restrictions and gain access to platform and pulpit, catalyzing what became known as the women's movement.

Systems. Design, Specification, and Verification Philippe Palanque, Fabio Paterno, 2003-06-29 The wait for the year 2000 was marked by the fear of possible bugs that might have arisen at its beginning One additional fear we had during this wait was whether organising this event would have generated a boon or another bug The reasons for this fear originated in the awareness that the design of interactive systems is a fast moving area The type of research work presented at this unique event has received limited support from funding agencies and industries making it more difficult to keep up with the rapid technological changes occurring in interaction technology However despite our fear the workshop was successful because of the high quality level of participation and discussion Before discussing such results let us step back and look at the evolution of DSV IS Design Specification and Verification of Interactive Systems an international workshop that has been organised every year since 1994 The first books that addressed this issue in a complete and thorough manner were the collection of contributions edited by Harrison and Thimbleby and the book written by Alan Dix which focused on abstractions useful to highlight important concepts in the design of interactive systems Since then this area has attracted the interest of a wider number of research groups and some workshops on related topics started to be organised DSV IS had its origins in this spreading and growing interest The first workshop was held in a monastery located in the hills above Bocca di Magra Italy
