

American History Final Test Study Guide

Chapter 15

1. What were the problems southern economy faced in the post Civil War era?
 - a. In post civil war era, southern economy continued to lag behind the rest of the country, while North was able to build on its strong industrial base, the South first had to repair damages of war. Industry rests on natural resources, labor and capital investment. The South had plenty of natural resources, but not enough labor or capital investment.
 - b. **Lack of Skilled workers:** South had limited public education and a lack of technical and engineering schools that could train people needed by industry. At the same time, low wages discouraged skilled workers from coming to the South and the lure of higher wages or better conditions elsewhere siphoned off southern workers.
 - c. **Limited Capital investment:** Additionally, very few southern banks had survived the war and those that were functioning had fewer assets than their northern competitors. With few strong banks, southern financiers were dependent on northern banks to start or expand businesses or farms.
 - d. **Cotton dominates Agriculture:** cotton was the centerpiece of southern agricultural economy. During the war, many European textile factories found suppliers outside the South and the price of cotton had fallen. Now, South's abundance of cotton simply depressed the price further. Cotton's appeal and its problems dominated the southern economy.
2. What were the causes and effects of Indian Wars?
 - a. **Causes of Indian wars:**
 - i. **Native Americans pushed off their lands face suppression and poverty:** In the 1800s, the government carried out a policy of moving Native Americans out of the way of white settlers. Native Americans were moved off their land in Georgia and onto the Great Plains, which were considered uninhabitable by the white settlers. When Gold and silver was discovered in Indian Territory, Americans wanted a railroad that crossed the continent. Therefore, the federal government began to restrict Indians to smaller areas. By the late 1860s, Indians were forced onto separate reservations. No longer free to roam the Plains, Indians faced suppression and poverty.
 - ii. **Industrial growth reinforces faith in manifest destiny:** The rapid industrial development and expansion following the civil war set Native Americans and white settlers on a collision course. Advances in communication and transportation that supported industrial growth also reinforced faith in manifest destiny.
 - iii. **Native Americans attack settlements resisting threats to their land rights:** Sioux Indians resisted threats to their land rights by attacking settlements in eastern
