City of Children Francesco Tonucci, 2020-06-30 The city born to be a place of meeting and exchange has for several decades taken as a default model the strong citizen man adult and worker thereby transforming it into a hostile space for the weakest the elderly the disabled the poor and the children The automobile the toy of choice for the privileged citizen is also taken to be the principal citizen of the city thus endangering the health aesthetics and mobility of the rest of us This book proposes a new philosophy of city governance that takes children as the default citizens with the confidence that a city sensitive to the needs of childhood will be healthier for everybody This work recovers elements of the 1989 Convention of the Rights of the Child that recognize the full citizenship of children to suggest two principle axioms for optimal city design the participation of children in city governance and the restitution of their autonomy which allows them to stay with their friends and play freely Boys and girls in this way represent all those excluded from decisions and power This book is primarily written for politicians and city managers so that they can take on board the ideas within Yet it is also important for teachers and parents so that they can respect the rights provided in the convention City of Children should be made available to students on teacher training courses and also to the children who are the book's true protagonists At present more than two hundred cities in Spain Italy Argentina Uruguay Colombia Peru Chile Mexico Dominican Republic Brazil and Costa Rica have joined this project This book is a translation of *La città dei bambini* and was translated as part of the Bridging Language and Scholarship initiative The English edition by Vernon Press follows previous editions of this important work in Italian and the four languages of the Spanish nation Galego Basque Catalan and Castilian French and Portuguese to make available for the first time this important work to a broader international audience
