

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Food Security and Development Udaya Sekhar Nagothu,2014-11-13 The global food system is characterized by large numbers of people experiencing food insecurity and hunger on the one hand and vast amounts of food waste and overconsumption on the other This book brings together experiences from different countries addressing the challenges associated with food security Seen through various disciplinary lenses the different cases included are countries at various stages of food security with diverse stories of success as well as failures in their efforts China Brazil and India as well as less developed countries in Africa and Asia such as Malawi Ethiopia Tanzania Myanmar Bangladesh and the Philippines The authors pay special attention to the environmental and socio economic challenges in the respective chapters and how they contribute to food insecurity Each of the case studies identifies and analyzes which factors or drivers environmental economic policy technology markets have been the most powerful shapers of the food system and their future impact The case studies identify interventions at regional national and local level that contribute positively to food security highlighting solutions that are effective and easy to implement for all levels of decision makers from farmers to policy makers Overall the book provides insights in order to foster a greater understanding of the issues surrounding food security and support progress towards the goal of a sustainable food system for all

Multilateral Asian Security Architecture See Seng Tan,2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia s multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN s significance to the successes and failures of Asia s multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia s regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally

Global Strategic Trade Management Rajiv Nayan, 2019-02-26 This book examines whether India is successfully integrating and adapting to the global strategic management system. It offers essential insights into the evolution of export controls for goods which may have implications for the development of Weapons of Mass Destruction, an aspect that is especially relevant given India's robust biotechnological, chemical, and nuclear industrial base. In security studies, the phrase strategic trade management is now slowly replacing the phrase export control. However, for the policymaking community, export control remains popular at least for the sake of reference. The book also describes the mechanisms India is adopting in this regard. It demonstrates the shift in the Indian approach to strategic trade management from an outspoken critic to a supporter. Politically, the country was initially skeptical of the idea of export controls because it was a target of such systems. The book also explains the tools, forces, and incentives that moved India to adapt its policy on export controls or strategic trade management.
