Restoring the Educational Dream.

Rethinking Educational Transformation in Zimbabwe Shizha, Edward, 2013-12-07 The role of education in human well being and social development cannot be overestimated After a number of highly commendable policies on education in the first decade of independence the education system in Zimbabwe has taken a tumble that needs both examining and rectifying This volume analyses the challenges facing the education system in Zimbabwe and explores and scrutinises theoretical and practical possibilities for restoring the educational dream that was initiated at independence in 1980 The book is targeted at

academics scholars college and university students policy makers and other stakeholders and advocates a multi pronged approach that must involve all stakeholders if educational retransformation reconstruction and restoration are to be achieved The authors provide a range of recommendations for a project that would restore the educational dream in Zimbabwe

Regime and Education in Zimbabwe Bekithemba Dube,Albert Mufanechiya,2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy *The Soils of Zimbabwe* Kingston W.

Creary,2011 Catholic theologians have developed the relatively new term inculturation to discuss the old problem of adapting the church universal to specific local cultures Europeans needed a thousand years to inculturate Christianity from its Judaic roots Africans efforts to make the church their own followed a similar process but in less than a century Until now there has been no book length examination of the Catholic church s pastoral mission in Zimbabwe or of African Christians efforts to inculturate the church Ranging over the century after Jesuit missionaries first settled in what is now Zimbabwe this enlightening book reveals two simultaneous and intersecting processes the Africanization of the Catholic Church by African Christians and the discourse of inculturation promulgated by the Church With great attention to detail it places the history of African Christianity within the broader context of the history of religion in Africa This illuminating work will contribute to current debates about the Catholic Church in Zimbabwe and throughout Africa **Rhodesia's Unilateral Declaration of Independence** Hugh Pattenden,Carl P.
