- A stainless steel exhaust pipe is used for weight reduction and rust resistance.
- A ball joint is used to join the exhaust from pipe and exhaust manifold. As a result, a simple and reliable construction for reducing vibration has been realized.
- The oxidation-catalytic converter is used to clean the exhaust gas particulates, HC and CO. The table below describes the location of the converter (where applicable), in accordance with the engine type and exhaust emission regulation compliance.

| Emission Regulation                          | EURO III or Tier I                           |                                                 | EURO I or Non-Compliance |
