throughout history      *Where Culture and Mind Meet* Brady Wagoner, Kevin Carriere, 2021-01-01 Cultural psychology explores the mutual constitution of persons minds and socialcultural worlds It aims to be both transdisciplinary and international in its approach and to develop theoretical models that remain faithful to people s lived experiences This volume further advances these objectives through an exploration of core concepts especially normativity liminality and resistance cultural psychology s foundations in philosophy and the translation of theory into a methodology for investigating distinctly human ways of relating to the world      They Played Rugby for New Zealand 1884-2023 Eric Lemon, 2024-11-11 Over 500 pages of facts statistics and records of every match and every player for the New Zealand national Rugby Union team from the first match in May 1884 up to December 2023      **Monthly Notices of the Royal Astronomical Society** ,1908 Portfolio of 8 charts accompanies v 83      Paul McCartney and His Creative Practice Phillip McIntyre, Paul Thompson, 2021-08-10 This book provides fresh insight into the creative practice developed by Paul McCartney over his extended career as a songwriter record producer and performing musician It frames its examination of McCartney s work through the lens of the systems model of creativity developed by Mihaly Csikszentmihalyi and combines this with the research work of Pierre Bourdieu This systems approach is built around the basic structures of idiosyncratic agents like McCartney himself and the choices he has made as a creative individual It also locates his work within social fields and cultural domains all crucial aspects of the creative system that McCartney continues to be immersed in Using this tripartite system the book includes analysis of McCartney s creative collaborations with musicians producers artists and filmmakers and provides a critical analysis of the Romantic myth which forms a central tenet of popular music This engaging work will have interdisciplinary appeal to students and scholars of the psychology of creativity popular music sociology and cultural studies      **The Architect** ,1892      Materializing the Middle Passage Jane Webster, 2023-10-31 An estimated 2 7 million Africans made an enforced crossing of the Atlantic on British slave ships between c 1680 and 1807 a journey that has become known as the Middle Passage This book focuses on the slave ship itself The slave ship is the largest artefact of the Transatlantic slave trade but because so few examples of wrecked slaving vessels have been located at sea it is rarely studied by archaeologists Materializing the Middle Passage A Historical Archaeology of British Slave Shipping 1680 1807 argues that there are other ways for archaeologists to materialize the slave ship It employs a pioneering interdisciplinary methodology combining primary documentary sources maritime and terrestrial archaeology paintings maritime and ethnographic museum collections and many other sources to rebuild British slaving vessels and to identify changes to them over time The book then goes on to consider the reception of the slave ship and its trade goods in coastal West Africa and details the range and uses of the many African resources including ivory gold and live animals entering Britain on returning slave ships The third section of the book focuses on the Middle Passage experiences of both captives and crews and argues that greater attention needs to be paid to the coping mechanisms through which Africans survived yet also challenged their captive passage Finally

Jane Webster asks why the African Middle Passage experience remains so elusive even after decades of scholarship dedicated to uncovering it. She considers when how and why the crossing was remembered by saltwater captives in the Caribbean and North America. The marriage of words and things attempted in this richly illustrated book is underpinned throughout by a theoretical perspective combining creolization and postcolonial theory and by a central focus on the materiality of the slave ship and its regimes.
