American Educational Research Association Annual Meeting Program American Educational Research Association, 2007 Applied Learning in Higher Education: Sok Mui Lim, Yong Lim Foo, Han Tong Loh, Xudong Deng, 2020

Today all institutions of higher education almost everywhere in the world have been influenced by the concept of globalisation. The resulting policy changes in each nation state have of course reflected the degree of the impact of globalisation on the country hence the changes in higher education. Banya 2005 p 147. This points to globalisation shaping knowledge production as well as the spread of intentional and continuous waves of innovation. The effects of globalisation on education can be seen through a) the changing paradigm from a closed system to a more open system and b) the changing approach from a teacher centred learning environment to that of a learner centred environment. This changing approach culminates in the broader ideas of applied learning through a) a productive view of learning versus reproductive view of learning b) constructivist versus behaviourist c) learning facilitation versus teaching and d) process based assessment versus outcome based assessment.
