Lambdin, Nancy L. Smith, 2014-10-20 The 11th Edition of Helping Children Learn Mathematics is designed to help those who are or will be teachers of mathematics in elementary schools help children develop understanding and proficiency with mathematics so they can solve problems This text is built around three main themes helping children make sense of mathematics incorporating practical experiences and using research to guide teaching It also integrates connections and implications from the Common Core Standards Mathematics CCSS M Most Likely to Succeed Tony Wagner, Ted Dintersmith, 2015-08-18 An urgent call for the radical reimagining of American education so that we better equip students for the realities of the twenty first century **Rethinking Teacher Supervision and Evaluation** Kim Marshall, 2013-04-22 Teacher supervision and evaluation that emphasizes fairness excellence and achievement In this thoroughly revised and updated edition of his bestselling book education expert Kim

Marshall shows how to break away from the typical and often ineffective evaluation approaches in which principals use infrequent classroom visits or rely on standardized test scores to assess a teacher's performance. Marshall proposes a broader framework for supervision and evaluation that enlists teachers in improving the performance of all students. Revised edition of the classic book on teacher supervision and evaluation. Includes thoughts on iPad and iPhone apps for classroom observation. Offers new chart on how principals can manage ten mini observations per teacher per year. Contains new thoughts on merit pay, a different approach to the test score argument from Arne Duncan. This vital resource also includes extensive tools and advice for managing time as well as ideas for using supervision and evaluation practices to foster teacher professional development.

Show, Tell, Build Joyce W. Nutta, Carine Strebel, Florin M. Mihai, Edwidge Crevecoeur Bryant, Kouider Mokhtari, 2020-07-29 Building upon the theoretical and practical foundation outlined in their previous book *Educating English Learners*, the authors show classroom teachers how to develop a repertoire of instructional techniques that address K-12 English learners (ELs) at different English proficiency and grade levels and across subject areas. *Show Tell Build* is organized around two decision maps for planning and implementing differentiated instruction for ELs: the Academic Subjects Protocol for teachers of academic subjects and the Language Arts Protocol for teachers of language arts. The instructional tools and techniques described in each chapter help teachers provide communication support for ELs through showing and telling and develop their language proficiency through building their skills. The book also discusses the demands that academic language poses for ELs and ways to assess students' proficiency in English. *Show Tell Build* provides classroom teachers, English language development specialists, literacy coaches, and school leaders with valuable knowledge and skills to support ELs' academic success.

Education Flashpoints Alan J. Singer, 2014-04-24 Drawing on his widely read Huffington Post columns, rated one of the top educational blogs in the United States, Alan Singer introduces readers to contemporary issues in education in the United States. The issues are presented with a point of view and an edge intended to promote widespread classroom debate and discussion. Each section opens with a new topical summary essay followed by a series of brief essays updated and adapted from Huffington Post columns. The book includes guest contributions, guiding questions, and responses to essays by teacher education students and teachers to further classroom discussion. *Education Flashpoints* is written in a conversational style that draws readers into a series of debates by presenting issues in a clear and concise manner but also with a touch of irony and a bit of rhetorical bite. The topics examined in these essays read like the latest newspaper headlines in the battle to define public education in the United States.
