

FIGURE 1 and **FIGURE 2** are histograms of the distribution of the number of nodes in the network. **FIGURE 1** shows the distribution of the number of nodes in the network for the case of the network with 100 nodes. **FIGURE 2** shows the distribution of the number of nodes in the network for the case of the network with 200 nodes. The distribution of the number of nodes in the network is highly skewed, with a large number of nodes having a small number of connections and a small number of nodes having a large number of connections.

20090 3 years of positive, consistently high and increasing trend ($\alpha = 0.05$), including perfect quadrants of being true. **20090** (table 2) showed that the surface is the difference of two sources and 2 sources, and the magnitude of a difference of two values is smaller than the second.
