

Water Park Project Part I

TASK 1: Designing your Park

You have recently been hired to create a blueprint for a water park. Your boss, Catherine Harrington, is a very controlling person. She wants you to include specific attractions and necessities in your design. Be prepared to answer her questions before you have had enough time to adequately explain what you are doing. First off, she wants it to be done on a large sheet of graph paper so that she can apply her mathematical knowledge to make the park the best it can be. She has issues and will yell at you if you do not do this properly. Before starting your blueprint, identify the center of your paper, and use a ruler to draw in the x and y axes. Then, you need to plot the approximate entrance points (where the line starts!) of each attraction on the graph paper and draw in the remaining part of the attraction around it in a creative fashion. Try to spread them out as much as possible. Use a pencil to draw the items and then go back and color them in with colored pencils.

Items to be included in the design are listed below:

- Life center
- Large whirlpool
- 3 different water slides (use your imagination)
- Toddler area
- Lazy river
- Concessions
- Gift shop
- Restrooms
- Security desk
