By Philip Doddridge. [With a Portrait.]*, 1810 *The Transcendental Universe* C. G. Harrison, 1993-04-15 Our very I consciousness is possible because the mineral earth the first layer of the interior of the Earth and the other chthonic regions exist Our human nature is a reflection of the subearthly and supraearthly realms that comprise the macrocosm and the microcosm The true meaning of the microcosm macrocosm analogy is not that the human being is a little cosmos but that the cosmos is a big human being From this perspective it makes complete sense that the subterranean realms described by spiritual science live within the deepest realms of our human nature and subconscious life of darker feelings and will Deep within the human being they radiate into the shadows of thought This region is more familiarly known as Hell Hades or the Abyss The subterranean spheres then are the Earth's dark side from Paul V O Leary's introduction Throughout human history ancient wisdom and traditional myths have placed human beings between the heavens and the underworld describing the heavens as the light filled realm of the gods and the source of goodness and characterizing the underworld as a demon filled realm of darkness and the source of evil Modern science however denies the heavens and knows little of the Earth's interior even physically beyond the first few miles after which it simply resorts to conjecture based on the extrapolation of existing sensory data In other words natural science fails to take into account that

the Earth is a living spiritual being and ignores the presence of its soul spiritual qualities and influences To remedy this during the early twentieth century Rudolf Steiner researched the psychic spiritual and cosmic nature of the Earth s interior He described how the different layers of the inner Earth affect and interact with human beings living on Earth More theologically and cosmically he spoke of the layers of Hell through which Jesus Christ traveled in the period between the Crucifixion and the Resurrection uniting and integrating himself with the Earth and with human destiny The seven authors in *The Inner Life of the Earth* approach this difficult and little discussed topic from different directions They discuss how the forces emanating from the interior of the Earth affect the weather our atmosphere human beings and how human behavior in turn affects them showing that earthly and human evolution are a unity and should never be thought of as occurring separately They also discuss the deep significance of Christ s incarnation by which he united with the Earth to become the Spirit of the Earth Without Christ s deed the Mystery of Golgotha which reunites cosmic and human evolution with the divine human beings would be unable to work in freedom with Christ or with Sophia divine feminine Wisdom in her form as the Soul of the Earth to overcome evil and help lift all creation toward goodness and greater human cosmic and divine fellowship

Conflicted Boundaries in Wisdom and Apocalypticism Lawrence Mitchell Wills, Benjamin G. Wright, 2005 The notion that wisdom and apocalypticism represent fundamentally different and mutually exclusive categories of genre and worldview in early Jewish and Christian literature persists in current scholarship The essays in this volume the work of the Wisdom and Apocalypticism Group of the Society of Biblical Literature challenge that generally held view as they explore the social locations and scholarly constructions of these literatures and discover an ancient reality of more porous categories and complex interrelationships The volume draws on a broad range of Jewish and Christian texts including 1 Enoch Sirach 4QInstruction Psalms of Solomon James Revelation and Barnabas From publisher s description **Reading Revelation C.** Marvin Pate, 2009-05-01 Intriguing and endlessly contentious ideas and images of apocalyptic measure come together in the book of Revelation It is a rich and hermeneutically complicated Scripture that unsurprisingly has no universally accepted interpretation Reading Revelation compares these four major approaches to Revelation by laying out the different interpretive translations provided by each school of thought in parallel columns
