The Economic Naturalist Robert H. Frank,2007 The playful guide to how economics explains the simple but profound ideas that govern our world Why do the keypads on drive up cash machines have Braille dots Why are round trip fares from Orlando to Kansas City higher than those from Kansas City to Orlando For decades Robert Frank has been asking his economics students to pose and answer questions like these as a way of learning how economic principles operate in the real world which they do everywhere all the time Once you learn to think like an economist all kinds of puzzling observations start to make sense This book employs basic economic principles to answer scores of intriguing questions and along the way introduces key ideas such as the cost benefit principle the no cash left on the table principle and the law of one price There is no more delightful and painless way of learning these fundamental principles From publisher description

Economics for Everyone Jim Stanford,2008 Economics is too important to be left to economists This brilliantly concise and readable book provides nonspecialist readers with all the information they need to understand how capitalism works and how it doesn t Jim Stanford s book is an antidote to the abstract and ideological way that economics is normally taught and reported Key concepts such as finance competition and wage labour are explored and their importance in everyday life is revealed Stanford answers questions such as Do workers need capitalists Why does capitalism harm the environment and What really happens on the stock market He offers both a

realistic assessment of capitalism's strengths and a robust critique of its many failures. This book will appeal to those working for a fairer world and students of social sciences who need to engage with economics. The book is illustrated with humorous and educational cartoons by Tony Biddle and is supported with a comprehensive set of web-based course materials for popular economics courses.
