All Things Possible Setbacks And Success In Politics And Life:

All Things Possible Andrew M. Cuomo, 2014-10-14 In this frank memoir a story of duty family justice politics and resilience Andrew Cuomo New York State's fifty sixth governor reflects on his rise fall and rise again in politics and the tough but necessary lessons he has learned along the way Born to first generation American parents in the working class neighborhood of Queens New York Andrew M Cuomo grew up in a family anchored by a shared belief in community hard and honest work and helping others His father Mario led by example as a tireless advocate for local residents instilling in his son a passion for public service From stapling up posters as a sixteen year old during his father's first political campaign to managing at twenty five Mario's successful 1982 bid for New York State governor Andrew Cuomo witnessed at a young age the power of politics to effect change for the common good These experiences reinforced by deeply held personal values guided him from novice campaign manager to visionary reform crusader to Clinton cabinet member at thirty nine to groundbreaking governor of his home state Laying out his unique approach to challenging the status quo **All Things Possible** is not a traditional political memoir but rather one man's revelatory reflection on a life defined by a commitment to public service and the hard won truths gleaned from both his struggles and his successes In recounting his uphill battles to redefine the way America deals with homelessness rehabilitate the legislative process in Albany and bring marriage equality to New York Cuomo presents an inspiring blueprint for greater political cooperation and efficacy He also unflinchingly examines his failed 2002 gubernatorial bid which heralded a dark period of political and personal turmoil to illustrate why failure is inextricably bound up with success why we should never forget where we come from and the importance of balancing personal and professional commitments And he proves through all that he's achieved since his victory in the 2010 election that our biggest triumphs lie not in never falling but in rising every time we fall With 16 pages of color and black and white photos

Megaprojects for Megacities John Landis, 2022-12-08 **Megaprojects for Megacities** is a collection of 14 international case studies of transportation urban development and environmental megaprojects completed during the last ten years in North America Asia and Europe It goes beyond the previous megaproject literature to look at how and why each project was conceived planned engineered financed and delivered and at how particular planning and delivery practices shaped outcomes

Madam Mayor Stephanie A. Miner, 2025-03-25 Elected the first woman of a major city in New York State Stephanie Miner gives readers an inside look at the complexity of public policy and how the political system favors Goliath like insiders who amass power by giving easy answers over the David like reformers who attempt to challenge the status quo **Madam Mayor** is the story of what happens when personal values about honesty and integrity confront the hard reality of money and power More than a political memoir of a pathbreaking career Miner's book is also a front row seat to the inner workings of local elections mayoral politics and municipal policymaking Miner dives deep into the key policy areas that shaped her time as mayor of Syracuse and continue to affect most local politicians across the country education police

infrastructure pensions and economic development Among other things she writes frankly about the ugly injustices pervading the public education system the pressure to not ask questions about fiscal policy the challenges of making necessary infrastructure repairs that are not as sexy as splashy building projects and the political turmoil that came with writing a New York Times op ed criticizing the governor Miner shows how difficult it is to navigate such complex matters when there are so many vested interests seeking to sway those in power toward one side or another Miner s story sheds light on the myriad tensions between municipal and state politics the challenges of achieving meaningful change at the local level and the systemic obstacles to creating political change as illustrated in her ill fated bid to challenge the political Goliath Governor Andrew Cuomo If Stephanie Miner s illuminating stories of her time as Madam Mayor reveal anything it is that when supported and allowed to be creative local governments exist to solve problems

Politics Across the Hudson Philip Mark Plotch, 2018-06-20 Winner of the 2015 American Planning Association New York Metro Chapter Journalism Award The State of New York built one of the world s longest widest and most expensive bridges the new Tappan Zee Bridge stretching more than three miles across the Hudson River approximately thirteen miles north of New York City In **Politics Across the Hudson** urban planner Philip Plotch offers a behind the scenes look at three decades of contentious planning and politics centered around this bridge recently renamed for Governor Mario M Cuomo the state s governor from 1983 to 1994 He reveals valuable lessons for those trying to tackle complex public policies while also confirming our worst fears about government dysfunction Drawing on his extensive experience planning megaprojects interviews with more than a hundred key figures including governors agency heads engineers civic advocates and business leaders and extraordinary access to internal government records Plotch tells a compelling story of high stakes battles between powerful players in the public private and civic sectors He reveals how state officials abandoned viable options squandered hundreds of millions of dollars forfeited more than three billion dollars in federal funds and missed out on important opportunities Faced with the public s unrealistic expectations no one could identify a practical solution to a vexing problem a dilemma that led three governors to study various alternatives rather than disappoint key constituencies This revised and updated edition includes a new epilogue and more photographs and continues where Robert Caro s *The Power Broker* left off and illuminates the power struggles involved in building New York s first major new bridge since the Robert Moses era Plotch describes how one governor Andrew Cuomo shrewdly overcame the seemingly insurmountable obstacles of onerous environmental regulations vehement community opposition insufficient funding interagency battles and overly optimistic expectations

Problems of Communism, 1956 *Constructing Social Problems* Malcolm Spector, John I. Kitsuse, 2017-07-05 There is no adequate definition of social problems within sociology and there is not and never has been a sociology of social problems That observation is the point of departure of this book The authors aim to provide such a definition and to prepare the ground for the empirical study of social problems They are aware that their objective will strike many fellow sociologists as ambitious perhaps even arrogant Their work challenges sociologists who have over a period of fifty years written treatises on social problems produced textbooks cataloguing the nature distribution and causes of these problems and taught many sociology courses It is only natural that the authors work will be viewed as controversial in light of the large literature which has established a sociology of a wide range of social problems the sociology of race relations prostitution poverty crime mental illness and so forth In the 1970s when the authors were preparing for a seminar on the sociology of social problems their review of the literature revealed the absence of any systematic coherent statement of theory or method in the study of social problems For many years the subject was listed and offered by university departments of sociology as a service course to present undergraduates with what they should know about the various social pathologies that exist in their society This conception of social problems for several decades has been reflected in the substance and quality of the literature dominated by textbooks In *Constructing Social Problems* the authors propose that social problems be conceived as the claims making activities of individuals or groups regarding social conditions they consider unjust immoral or harmful and that should be addressed This perspective as the authors have formulated it conceives of social problems as a process of interaction that produces social problems as social facts in society The authors further propose that this process and the social facts it produces are the data to be researched for the sociology of social problems This volume will be of interest to those concerned with the discipline of sociology especially its current theoretical development and growth
