a security risk for spreading a divisive ideology that can lead to radicalisation and violence More recently the Government has expressed concerns about their impact on social cohesion entryism and women s rights The key protagonists of non violent Islamist extremism allegedly include groups and individuals associated with the Muslim Brotherhood and Jama at i Islami They have been described as part of the global Muslim Brotherhood but do they constitute a singular phenomenon a social movement This book shows that such groups and individuals do indeed comprise a movement in Britain one dedicated to an Islamic revival It shows how they are networked organisationally bonded through ideological and cultural kinship and united in a conflict of values with the British society and state Using original interviews with prominent revivalist leaders as well as primary sources the book also shows how the movement is not so much Islamist in aspiring for an Islamic state but concerned with institutionalising an Islamic worldview and moral framework throughout society The conflict between the Government and the global Muslim Brotherhood is apparent in a number of different fields including education governance law and counterterrorism But this does not simply concern the direction of Government policy or the control of state institutions It most fundamentally concerns the symbolic authority to legitimise a way of seeing thinking and living By assessing this multifaceted conflict the book presents an exhaustive and up to date analysis of the political and cultural fault lines between Islamic revivalists and the British authorities It will be useful for anyone studying Islam in the West

Harrison,2015-11-25 The iGeneration has learned to adapt rapidly to technological change Tech savvy students multi task with consummate ease accessing email on smart phones researching assignments on tablets reading a book on Kindle while drinking a flat white and listening to iTunes in the background How does the tertiary educational curriculum meet the learning needs of students whose attention transitions rapidly between mediums and messages The complexity and pace of modern technological change has left the theological educational sector gasping as it struggles to devise pedagogically engaging online distance learning materials in traditional disciplines and teach units with significant relational and pastoral components The technological benefits are vast the instant availability of information unprecedented and the opportunities to provide theological education to groups marginalised by the tyranny of distance and time enormous How should the theological sector address these challenges and opportunities Although the benefits are massive the media is replete with stories of the casualties of technological change including cyber bullying internet predators the psychic damage from trolls addiction to gaming and issues of body image among others How should the theological sector drawing upon its scriptural and teaching heritage come to grips with the deficits spawned by the technological revolution What is the theological pastoral social and pedagogic responsibility of theology teachers in nurturing this new generation Teaching Theology in a Technological Age draws together in an inspiring volume a series of cutting edge essays from Australian New Zealand and South African scholars on the learning and teaching of theology in a digital age

Crisostomo, 2023-05-02 Why Rush Into Marriage If love and attraction are all you need for a happy and long lasting marriage why do so many great relationships end in a breakup Why is cohabitation becoming more common while marriages are becoming less common In the past our ancestors usually didn't get married because they loved each other Instead they did it to join families and raise children together Their marriages were usually set up by their parents and they would start with a betrothal They lacked the same benefits rights and systems that modern spouses in many countries enjoy Can we say that the relationships between modern couples are better than those of our ancestors given that mutual love is the main reason people get married today This book talks about the truths most would be couples ignore before they decide on their own to get married Once their marriage becomes miserable they start to realize that they made mistakes in their choice of partner
