## **Chatgpt Trending 2025 Edition:**

Recent Trends of AI Technologies and Virtual Reality Kazumi Nakamatsu, Roumiana Kountcheva, Srikantha Patnaik, 2025-08-30 This book provides the proceedings of the 8th International Conference on Artificial Intelligence and Virtual Reality AIVR 2024. The focus is interdisciplinary in nature and includes research on all aspects of artificial intelligence and virtual reality from fundamental development to the applied system. It constitutes a great honour and pleasure for us to publish the selected excellent works and recent research trends of scholars and graduate students from the 8th International Conference on Artificial Intelligence and Virtual Reality AIVR 2024 Fukuoka Japan July 19-21, 2024, hosted and organized by Fukuoka Institute of Technology in conjunction with other four universities and Beijing Huaxia Rongzhi Blockchain Technology Institute. The topics of AIVR 2024 cover system techniques, performance and implementation, content creation and modelling, cognitive aspects, perception, user behaviour, AI technologies, interactions, interactive and responsive environments, AI/VR applications and case studies. These technologies have the potential to support AI and VR systems in many areas of production, management, business, healthcare, networks, intelligent control, traffic management, logistics, crisis response, human interfaces, etc.

*AI in Popular Culture* Dal Yong Jin, 2025-12-08 This book examines the transformative impact of generative AI on cultural production with a particular focus on how AI technologies like ChatGPT are reshaping the creation of popular culture. Through a comprehensive analysis of both Global North and South perspectives, the book offers critical insights into AI governance, ethical considerations, and the future of cultural production in an increasingly AI-integrated creative landscape. Tracing the evolution of AI in cultural industries from its early representations in films to its current active role in content creation across various media including film, television, music, and animation, the book explores how AI has shifted from being merely depicted in cultural works to becoming an integral tool in the creative process from pre-production to post-production stages. It critically analyzes three core concepts: creativity, control, and credentials (3Cs) in the context of AI-driven cultural production, putting focus on the examination of precarious creativity, the tension between human creative expression and AI-generated content. The work addresses crucial concerns about labor rights, job security, and creative control in the cultural industries. This book will interest graduate students and researchers in media studies, cultural studies, anthropology, globalization studies, sociology, and science and technology studies (STS), as well as interested policymakers and practitioners interested in AI's impact on the creative industries.

**New Media Pedagogy: Research Trends, Methodological Challenges, and Successful Implementations** Łukasz Tomczyk, 2025-06-28 This volume constitutes the revised selected papers of 3rd International Conference on New Media Pedagogy NMP 2024 in Kraków, Poland, during November 28-29, 2024.
