Hey, Doc! Are You Listening to Your Heart? Richard Sheff, 2008-09-29 If you want to help change medicine give this book to your doctor Hey Doc the true story of Dr Richard Sheff s personal journey through medical training as a family physician shows us a new way to understand doctors and ourselves as patients I knew then as now there is something terribly lacking in how we take care of patients and train physicians Over two decades in medicine has taught me that the most potent tool for healing we as physicians have is our heart But each of us must learn to listen to our own heart before we can touch and heal the hearts of our patients While this book is a must read for anyone considering a career in medicine Hey Doc speaks to

the patient in all of us Readers will understand their own doctor and come away with new hope that when sick and most vulnerable they can be heard understood and touched by their physician Dr Sheff teaches us the surprising truth that in their hearts doctors yearn for the same connection with us

Non-Heart-Beating Organ Transplantation Institute of Medicine, Division of Health Care Services, Committee on Non-Heart-Beating Transplantation II: The Scientific and Ethical Basis for Practice and Protocols, 2000-04-19 In 1997 the Institute of Medicine published a report entitled Non Heart Beating Organ Transplantation Medical and Ethical Issues in Procurement The findings and recommendations of that study defined the ethical and scientific basis for non heart beating organ donation and transplantation and provided specific recommendations for practices that affirm patient welfare promote patient and family choice and avoid conflicts of interest Following the 1997 study the Department of Health and Human Services requested a follow up study to promote such efforts The central activity for this study was a workshop held in Washington D C on May 24 25 1999 The workshop provided the opportunity for extensive dialogue on non heart beating organ donation among hospitals and organ procurement organizations OPOs that are actively involved in non heartbeating organ and tissue donation and those with concerns about whether and how to proceed The findings and recommendations of this report are based in large measure on the discussions and insights from that workshop Non Heart Beating Organ Transplantation includes seven recommendations for developing and implementing non heart beating donor protocols These recommendations were based on the findings and recommendations from the 1997 IOM report and consensus achieved among participants at the national workshop The committee developed these recommendations as steps towards an approach to non heart beating donor organ donation and procurement consistent with underlying scientific and ethical guidelines patient and family options and choices and public trust in organ donation
