A Guide to Tracing Your Cork Ancestors Tony McCarthy, Tim Cadogan, 1998 This book sets out the records available for Cork where they can be accessed and how they can be used to best effect in tracing Cork families Back cover **Tracing Your British and Irish Ancestors** Jonathan Scott, 2016-10-31 Jonathan Scott is a freelance writer specializing in family history He is a former deputy editor of Family History Monthly and has penned the Best Websites column for Who Do You Think You Are Magazine since 2007 He also writes the magazine's monthly Around Britain feature and compiles the end of year look ahead at developments online In addition to his work in family history he has compiled Collecting Children's Books and Rare Book Price Guide **In Search of Your British & Irish Roots** Angus Baxter, 1982 *Tracing Your Irish Ancestors* John Grenham, 2006 **Tracing Your Irish Ancestors** John Grenham, 1993 John Grenham's *Tracing Your Irish Ancestors* is arguably the best book ever written on Irish genealogy Not since Margaret Falley's *Irish and Scotch Irish Ancestral Research* written in the early 1960s has there been a book that combines all the best features of a textbook and a reference book expertly describing the various steps in the research process while at the same time providing an indispensable body of source materials for immediate use Now updated to reflect the enormous changes brought about by the Internet the new Third Edition of *Tracing Your Irish Ancestors* marks another huge step forward in Irish genealogy Most importantly a chapter has been added that deals specifically with the Internet while a new online subsection showing county Internet sources has been added to each of the county source lists and where possible references have been given throughout for any online versions of the records dealt with Book jacket [Using Gravestones to Trace Your Ancestors](#) Amanda Leedham, 2025-05-30 Explores how gravestones offer valuable genealogical and social history insights aiding family research and uncovering hidden stories Everyone dies it's the one certainty in life Whilst burials have been taking place for thousands of years the eighteenth and nineteenth centuries saw the start of the gravestone boom as public graveyards became commonplace and personalised gravestones became more financially viable The information provided on gravestones and monuments make them a valuable primary source for anyone wanting to trace their family history They can provide details that are not available in the official records holding clues to break down brick walls but also work hand in hand with original records and documents Taking an in depth look at what our ancestors left behind on their gravestones and monuments Amanda Leedham advises the reader how to record this information and explores how it can aid family research and paint a picture of our ancestors' lives From exploring the types of occupations listed to how family ties are portrayed and from child mortality to the perception of women this book is also a great insight into social history In addition the author looks into the beliefs and fears of the period in terms of burial such as bodysnatchers and being buried alive and how the depiction of death changed and burial traditions developed The evidence that the graves give us for how people died from illness to things such as accidents or murder is also explored With meticulous research into military graves the author looks

at the different types of military gravestones and the difference between personal graves and the Commonwealth War Graves in Britain There is also large case study on how graves can help with our ancestors sense of place and belonging All of this is complemented with official documents records and extensive use of the national and local newspapers to show how important gravestones can be *The 452nd Anti-Aircraft Artillery Battalion* Samuel de Korte,2025-05-28 The 452nd Antiaircraft Artillery Battalion staffed by Black soldiers protected vital installations and shot down 68 enemy aircraft during WWII During the Second World War the airplane became a true menace Flying faster higher and capable of carrying a heavier payload air forces of the warring nations formed a formidable threat to the forces on the ground To counter this special anti aircraft artillery battalions were created by the US Army Several of these battalions including the 452nd Antiaircraft Artillery AAA Battalion were staffed by Black American soldiers The 452nd AAA deployed in England in November 1943 and went ashore in Normandy France in June 1944 Assigned to XII Corps part of General Patton s Third Army the 452nd AAA was a valuable asset of the US Army Armed with the deadly 40mm Bofor s gun and the 50 cal M45 Quadmount these Black soldiers protected bridges field artillery battalions and other vital installations during the Second World War Some of the white soldiers from the field artillery battalions the 452nd AAA was protecting doubted their abilities but quickly came to appreciate the accuracy and coolness under fire of the Black soldiers Credited with shooting down almost 68 hostile aircraft one of the highest among AAA units in Europe the 452nd AAA has rightfully earned its place in the history of the US Armed Forces during the Second World War Although the battalion s motto was We Guard the Skyways it would perhaps be more appropriate to call them Airplane Destroyers Almost 80 years after the war this outstanding unit s history is finally made public **How to Trace Your Irish Ancestors 2nd Edition** Ian Maxwell,2009-06-30 Whether you re

sources are introduced The earliest sources considered in detail are the 1660 poll tax return commonly known as Pender's Census and the hearth tax rolls All known available hearth tax rolls are listed in an appendix The various religious censuses of the eighteenth century are also examined and particular attention is paid to the most well known of these the census of 1766 The use of non census sources such as church and estate record is also considered It is shown that these non census sources can provide much useful information that would not be apparent from census substitutes Problems with working with these sources are outlined and examples of population studies both Irish and non Irish are given Although this book is written with the local historian in mind it will also be of much interest to genealogists and family historians
