water had a brewhouse usually close at hand Although many of the brewhouses still stand in some cases with the original brewing vessels as at Lacock and Charlecote their habitual conversion to other uses has allowed them to be ignored Yet they are distinctive buildings as much part of a country house as an ice house or stables which need both to be recognized and preserved The scale of brewing in country houses which went on to a surprisingly late date in the 19th century with odd survivals such as Hickleton in Yorkshire in the 20th was often considerable if small besides that of commercial brewing Copious records for both brewing and consumption exist Pamela Sambrook describes the brewing equipment such as coppers mash tuns underbacks and coolers the types of beers brewed from strong ale to small beer and how they were kept and the brewers themselves their skills and attitudes English Country House Brewing 1500 1900 shows the role beer played in the life of the country house with beer allowances and beer money an integral part of servants rewards Generous allowances were made for arduous tasks such as harvesting For celebrations such as the heir s coming of age extra strong ale was provided This book which is heavily illustrated is an important and original contribution to architectural brewing and social history **Official Gazette of the United States Patent and Trademark Office** ,2003 Monthly Summary of Commerce and Finance of the United States United States.
